

2nd Federal Reserve District Bank Markets

Description: The Federal Reserve Bank of New York is responsible for gauging the anticompetitive effects resulting from changes in local banking markets structure (including mergers and deposit-holding branch sales among bank and thrifts). We do this by noting changes in the Herfindahl-Hirschmann Index (HHI) and monitoring the share of deposits held by each top-tier holding company with a banking presence in each banking market. The FRBNY makes available this information in our market tables, which ranks these parent holding companies by deposits. Currently, we overlook 21 markets in total: 13 in the New York area, 6 in Puerto Rico and 2 in the Virgin Islands.

How our terminology compares to Census Bureau geography

Our terminology	Census Bureau equivalent
Townships	Minor Civil Divisions (MCDs).
Municipios	The same. This is equivalent to county-level geography in U.S. Municipios are Puerto Ricospecific geography.

Last Update: October 05, 2015

New York Area Markets

Metropolitan NY-NJ-PA-CT Market
