

# FEDERAL RESERVE BANK *of* NEW YORK

33 LIBERTY STREET, NEW YORK, NY 10045-0001

**PATRICIA SELVAGGI**  
STATISTICS OFFICER

April 6, 2012

**TO:** The Individual Responsible for Filing the Consolidated Report of Condition and Income for Edge and Agreement Corporations (FR 2886b) located in the Second Federal Reserve District.

**SUBJECT:** Edge and Agreement Corporation reporting requirements for March 31, 2012

Enclosed is a copy of the reporting form for the Consolidated Report of Condition and Income for Edge and Agreement Corporations (FR 2886b) for the quarter ending March 31, 2012. There are no changes to the FR 2886b reporting form and instructions for March 31, 2012.

## **Trust Preferred Securities and Limits on Restricted Core Capital Elements**

On March 10, 2005, the Federal Reserve announced the amendment of its risk-based capital standards to allow the continued inclusion of outstanding and prospective issuances of trust preferred securities in tier 1 capital, subject to stricter quantitative limits and qualitative standards. The Federal Reserve also revised the quantitative limits applied to the aggregate amount of qualifying cumulative perpetual preferred stock, qualifying trust preferred securities, and Class B and Class C minority interest<sup>1</sup> (collectively, restricted core capital elements) included in the tier 1 capital. These new quantitative limits were scheduled to become effective on March 31, 2009. However, on March 23, 2009, the Federal Reserve adopted a rule extending the compliance date for the tighter limits to March 31, 2011 in light of stressful financial conditions and the severely constrained ability of institutions to raise additional capital in the markets.

## **Goodwill Impairment Testing**

In September 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-08, "Testing Goodwill for Impairment," to address concerns about the cost and complexity of the

---

<sup>1</sup> Class B minority interest in consolidated subsidiaries is defined as qualifying cumulative perpetual preferred stock directly issued by a consolidated U.S. depository institution or foreign bank subsidiary. Class C minority interest in consolidated subsidiaries is defined as qualifying common stockholders' equity or perpetual preferred stock issued by a consolidated subsidiary that is neither a U.S. depository institution nor a foreign bank.

existing goodwill impairment test in ASC Topic 350, Intangibles-Goodwill and Other (formerly FASB Statement No. 142, “Goodwill and Other Intangible Assets”). The ASU’s amendments to ASC Topic 350 are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 (i.e., for annual or interim tests performed on or after January 1, 2012, for edge and agreement corporation’s with a calendar year fiscal year). Early adoption of the ASU is permitted. Edge and agreement corporations should adopt ASU 2011-08 for FR 2886b reporting purposes in accordance with the standard’s effective date and early adoption provisions.

Under ASU 2011-08, an edge and agreement corporation has the option of first assessing qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test described in ASC Topic 350. If, after considering all relevant events and circumstances, an edge and agreement corporation determines it is not more likely than not (that is, a likelihood of 50 percent or less) that the fair value of a reporting unit is less than its carrying amount (including goodwill), then the edge and agreement corporation does not need to perform the two-step goodwill impairment test. (In other words, if it is more likely than not - a likelihood of more than 50 percent - that the fair value of a reporting unit is greater than its carrying amount, an edge and agreement corporation would not have to test the unit’s goodwill for impairment.) If the edge and agreement corporation instead concludes that the opposite is true (that is, it is more likely than not that the fair value of a reporting unit is less than its carrying amount), then it is required to perform the first step and, if necessary, the second step of the two-step goodwill impairment test. Under ASU 2011-08, an edge and agreement corporation may choose to bypass the qualitative assessment for any reporting unit in any period and proceed directly to performing the first step of the two-step goodwill impairment test. The ASU includes examples of events and circumstances that an edge and agreement corporation should consider in evaluating whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount.

For additional information, please refer to ASU 2011-08, which is available at <http://www.fasb.org/jsp/FASB/Page/SectionPage&cid=1176156316498>

### **Accounting for Loan Participations**

Amendments to ASC Topic 860, Transfers and Servicing, resulting from Accounting Standards Update No. 2009-16 (formerly FASB Statement No. 166, “Accounting for Transfers of Financial Assets”) modified the criteria that must be met in order for a transfer of a portion of a financial asset, such as a loan participation, to qualify for sale accounting. These changes apply to transfers of loan participations on or after the effective date of amended ASC Topic 860 (January 1, 2010, for BHCs with a calendar year fiscal year), including advances under lines of credit that are transferred on or after the effective date even if the line of credit agreements were

entered into before the effective date. BHCs with a calendar year fiscal year must account for transfers of loan participations on or after January 1, 2010, in accordance with amended ASC Topic 860. In general, loan participations transferred before the effective date of amended ASC Topic 860 are not affected by this new accounting standard.

The Glossary entry for “Transfers of Financial Assets” in the FR Y-9C instructions incorporates the provisions of amended ASC Topic 860 and addresses related reporting issues, including a discussion of the reporting treatment of loan participations in accordance with amended ASC Topic 860. In particular, the Glossary entry discusses the reporting of transfers of loans guaranteed by the Small Business Administration (SBA). It describes the SBA’s previously longstanding requirement obligating the transferor of the guaranteed portion of an SBA loan at a premium to refund the premium to the transferee if the loan is repaid within 90 days of the transfer. The Glossary entry notes that this premium refund obligation is a form of recourse, which causes the transferred guaranteed portion of the loan to not meet the definition of a “participating interest” for this 90-day period during which the transfer must be accounted for as a secured borrowing. Thereafter, assuming the transferred guaranteed portion and the retained unguaranteed portion of the SBA loan now meet the definition of a “participating interest,” the transfer of the guaranteed portion can be accounted for as a sale if all of the conditions for sale accounting in amended ASC Topic 860 are met.

Edge and agreement corporations should note that the SBA recently eliminated its premium refund requirement for transfers of guaranteed portions of SBA loans at a premium effective for loan transfers settled on or after February 15, 2011. The elimination of this obligation removes the key factor that had been preventing the guaranteed and unguaranteed portions of an SBA loan from meeting the definition of a “participating interest” in a transfer of the guaranteed portion at a premium. With the elimination of this obligation from transfers at a premium on or after February 15, 2011, the transferred guaranteed portion and the retained unguaranteed portion of the SBA loan should now normally meet the definition of a “participating interest” on the transfer date. Assuming that is the case, the transfer of the guaranteed portion of an SBA loan should now be able to be accounted for as a sale on the transfer date, with immediate recognition of any gain or loss on the sale in earnings, if all of the conditions for sale accounting set forth in ASC Topic 860 are met.

### **Troubled Debt Restructurings and Current Market Interest Rates**

Many institutions are restructuring or modifying the terms of loans through workout programs, renewals, extensions, or other means to provide payment relief for those borrowers who have suffered deterioration in their financial condition. Such loan restructurings may include, but are not limited to, reductions in principal or accrued interest, reductions in interest

rates, and extensions of the maturity date. Modifications may be executed at the original contractual interest rate on the loan, a current market interest rate, or a below-market interest rate. Many of these loan modifications meet the definition of a troubled debt restructuring (TDR).

The TDR accounting and reporting standards are set forth in ASC Subtopic 310-40, Receivables - Troubled Debt Restructurings by Creditors (formerly FASB Statement No. 15, "Accounting by Debtors and Creditors for Troubled Debt Restructurings," as amended). This guidance specifies that a restructuring of a debt constitutes a TDR if, at the date of restructuring, the creditor for economic or legal reasons related to a debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. The creditor's concession may include a restructuring of the terms of a debt to alleviate the burden of the debtor's near-term cash requirements, such as a modification of terms to reduce or defer cash payments required of the debtor in the near future to help the debtor attempt to improve its financial condition and eventually be able to pay the creditor.

Because the stated interest rate charged the borrower after a loan restructuring may be greater than or equal to interest rates available in the marketplace for similar types of loans to nontroubled borrowers at the time of the restructuring, some institutions have concluded that these restructurings are not TDRs, which may not be the case. In making this determination, these institutions may not have considered all of the facts and circumstances associated with the loan modification besides the interest rate. An interest rate on a modified loan greater than or equal to those available in the marketplace for similar credits does not in and of itself preclude a modification from being designated as a TDR. Rather, when evaluating a loan modification to a borrower experiencing financial difficulties, an analysis of all facts and circumstances is necessary to determine whether a concession was made to the borrower with respect to the market interest rate (or has made some other type of concession that could trigger TDR accounting and disclosure, for example, terms or conditions outside of the institution's policies or common market practices) and, if so, how the modified or restructured loan should be reported on the FR 2886b report.

A loan restructured in a TDR is an impaired loan. Thus, all TDRs must be measured for impairment in accordance with ASC Subtopic 310-10, Receivables – Overall (formerly FASB Statement No. 114, "Accounting by Creditors for Impairment of a Loan," as amended)".

### **Troubled Debt Restructurings and Accounting Standards Update No. 2011-02**

In April 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-02, "A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring," to provide additional guidance to help creditors determine whether a concession has been granted to a borrower and whether a borrower is experiencing financial difficulties. The guidance is also

intended to reduce diversity in practice in identifying and reporting TDRs. This ASU is effective for public companies for interim and annual periods beginning on or after June 15, 2011, and should be applied retrospectively to the beginning of the annual period of adoption for purposes of identifying TDRs. The measurement of impairment for any newly identified TDRs resulting from retrospective application will be applied prospectively in the first interim or annual period beginning on or after June 15, 2011. Early adoption of the ASU is permitted for both public and nonpublic entities, with nonpublic entities that adopt early subject to a retrospective identification requirement.

Edge and agreement corporations are expected to continue to follow the accounting and reporting guidance on TDRs in the FR 2886b Instruction book. To the extent the guidance in the ASU differs from an edge or agreement corporation's existing accounting policies and practices for identifying TDRs, edges and agreement corporations will be expected to apply the ASU for FR 2886b reporting purposes in accordance with the standard's effective date and transition provisions, which are outlined above. To the extent that an edge or agreement corporation's existing accounting policies and practices are consistent with guidance in the ASU, edge and agreement corporations should continue to follow its existing policies and practices.

ASU 2011-02 reiterates that the two conditions mentioned in the preceding section on "Troubled Debt Restructurings and Current Market Interest Rates" must exist in order for a loan modification to be deemed a TDR: (1) a company must grant a concession to the borrower as part of the modification and (2) the borrower must be experiencing financial difficulties. The ASU explains that a company may determine that a borrower is experiencing financial difficulties if it is probable that the borrower will default on any of its debts in the foreseeable future. The borrower does not have to be in default at the time of the modification. Other possible factors that should be considered in evaluating whether a borrower is experiencing financial difficulties is if the borrower has declared (or is in the process of declaring) bankruptcy, the creditor does not expect the borrower's cash flows to be sufficient to service its debt under the existing terms, or there is substantial doubt about an entity's ability to continue as a going concern.

Another important aspect of the ASU is that it prohibits financial institutions from using the effective interest rate test included in the TDR guidance for borrowers in ASC Subtopic 470-60, Debt – Troubled Debt Restructurings by Debtors, when determining whether the creditor has granted a concession as part of a loan modification. However, as explained in ASU 2011-02, if a borrower does not have access to funds at a market rate of interest for similar debt, the rate on the modified loan is considered to be a below-market rate and may be an indicator that the company has granted a concession to the borrower.

Furthermore, the ASU provides new guidance regarding insignificant delays in payment as part of loan modification. If, after analysis of all facts and circumstances, a creditor determines that a delay in payment is insignificant, the creditor has not granted a concession to

the borrower. This determination requires judgment and should consider many factors, including, but not limited to, the amount of the delayed payments in relation to the loan's unpaid principal or collateral value, the frequency of payments due on the loan, the original contractual maturity, and the original expected duration of the loan.

For additional information, edge and agreement corporations should refer to ASU 2011-02, which is available at <http://www.fasb.org/jsp/FASB/Page/SectionPage&cid=1176156316498>.

### **Reporting Term Deposits**

The Federal Reserve Banks offer interest-bearing term deposits to eligible institutions through the Term Deposit Facility (TDF). A term deposit is a deposit with a specific maturity date. For FR 2886b reporting purposes, term deposits offered through the TDF should be treated as balances due from a Federal Reserve Bank. Accordingly, term deposits should be reported in Schedule RC, Balance Sheet, item 1.b, "Cash and balances due from depository institutions: Interest bearing balances". The earnings on these term deposits should be reported in Schedule RI, item 1.a.(2), "Interest on balances due from depository institutions".

### **Reporting Defined Benefit Postretirement**

ASC Subtopic 715-20, Compensation-Retirement Benefits - Defined Benefit Plans-General (formerly FASB Statement No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans" (FAS 158)) requires an edge and agreement corporation that sponsors a single-employer defined benefit postretirement plan, such as a pension plan or health care plan, to recognize the funded status of each such plan on its balance sheet. An overfunded plan is recognized as an asset while an underfunded plan is recognized as a liability. As of the end of the fiscal year when an edge and agreement corporation initially applied former FAS 158, the previously recognized postretirement plan amounts must be adjusted to recognize gains or losses, prior service costs or credits, and transition assets or obligations that have not yet been included in the net periodic benefit cost of its plans. These adjustment amounts are recognized directly in equity capital as components of the ending balance of accumulated other comprehensive income (AOCI), net of tax. Thereafter, an edge and agreement corporation must recognize certain gains and losses and prior service costs or credits that arise during each reporting period, net of tax, as a component of other comprehensive income (OCI) and, hence, AOCI. Postretirement plan amounts carried in AOCI are adjusted as they are subsequently recognized in earnings as components of the plans' net periodic benefit cost. For further information on accounting for defined benefit postretirement plans, edge and agreement corporation should refer to FAS 158; FASB Statement No. 87, Employers' Accounting for Pensions; and FASB Statement No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions all of which are codified in ASC Topic 715, Compensation-Retirement Benefits.

**Subscription Service**

We offer a subscription service which enables you to receive recent news and updates on our reporting forms and instructions and upcoming Bank events. You can sign up for this service at the following website:

[https://public.govdelivery.com/accounts/USFRBNEWYORK/subscriber/new?topic\\_id=USFRBNEWYORK\\_8](https://public.govdelivery.com/accounts/USFRBNEWYORK/subscriber/new?topic_id=USFRBNEWYORK_8)

**Reports Submission**

Please note that the timeliness of receipt of the report will be monitored and that submission of initial data via facsimile, even if prior to the deadline, does not constitute timely filing.

An original and one copy of the completed FR 2886b report must be returned to this Bank, by mail or messenger, no later than April 30, 2012. Any FR 2886b report received after 5:00 p.m. on April 30, 2012 will be considered late unless postmarked by April 27, 2012 or sent by overnight service by April 28, 2012.

**Electronic Submission Option**

Electronic submission of the FR 2886b report is now available to all edge and agreement corporations. We encourage you to take advantage of this method of report submission. Submitting reports electronically provides the following benefits:

- A timely and efficient alternative to sending the report forms by mail; and
- A printed report is generated that can serve as your institution's permanent record of the report.

For information on filing the FR 2886b report electronically, please contact Martin Milanovich at 212-720-7310.

The completed report should be submitted to:

**Federal Reserve Bank of New York  
Statistics Function  
33 Liberty Street, 4th Floor  
New York, NY 10045**

FEDERAL RESERVE BANK *of* NEW YORK

April 6, 2012  
8

We will also continue to monitor the accuracy of the periodic regulatory reports submitted for the March 31, 2012 report date. The staff of this Reserve Bank will monitor whether banking organizations are meeting their basic reporting requirements through the use of "validity edits".

**Website**

The FR 2886b forms and instructions are available on the FFIEC website at:  
[www.federalreserve.gov/boarddocs/reportforms/](http://www.federalreserve.gov/boarddocs/reportforms/)

Questions regarding the FR 2886b should be directed to Martin Milanovich, Reports Analyst at (212) 720-7310, or Christine Burke, Team Leader in the Regulatory Reports Division at (212) 720-2409.

Sincerely,

-- Signed by Patricia Selvaggi -
