

FEDERAL RESERVE BANK *of* NEW YORK

33 LIBERTY STREET, NEW YORK, NY 10045-0001

Alex Santana
ASSISTANT VICE PRESIDENT

January 18, 2019

To: The Individuals Responsible for Preparing the Consolidated Financial Statements for Holding Companies (FR Y-9C) Located in the Second Federal Reserve District

Subject: Holding Companies (HCs) Reporting Requirements for December 31, 2018

The following report forms and instructions for the December 31, 2018 reporting date have been posted to the Federal Reserve Board's website at <https://www.federalreserve.gov/apps/reportforms/default.aspx>:

- (1) The Consolidated Financial Statements for Holding Companies (FR Y-9C);
- (2) The Parent Company Only Financial Statements for Large Holding Companies (FR Y-9LP);
- (3) The Parent Company Only Financial Statements for Small Holding Companies (FR Y-9SP);
- (4) The Financial Statements for Employee Stock Ownership Plan Holding Companies (FR Y-9ES);
- (5) The Financial Statements of U.S. Nonbank Subsidiaries of U.S. Holding Companies (FR Y-11);
- (6) The Abbreviated Financial Statements of U.S. Nonbank Subsidiaries of U.S. Holding Companies (FR Y-11S);
- (7) The Financial Statements of Foreign Subsidiaries of U.S. Banking Organizations (FR 2314);
- (8) The Abbreviated Financial Statements of Foreign Subsidiaries of U.S. Banking Organizations (FR 2314S)
- (9) The Financial Statements of U.S. Nonbank Subsidiaries Held by Foreign Banking Organizations (FR Y-7N);
- (10) The Abbreviated Financial Statements of U.S. Nonbank Subsidiaries Held by Foreign Banking Organizations (FR Y-7NS);
- (11) The Consolidated Holding Company Report of Equity Investments in Nonfinancial Companies (FR Y-12); and

(12) The Annual Report of Merchant Banking Investments Held for an Extended Period (FR Y-12A);

The expiration dates on the cover page of the FR Y-9C and FR Y-9LP were updated. Additionally, several changes were made to the FR Y-9C to clarify the reporting of residential mortgage loans on Schedule HC-R, Part II, item 4.a and 5.a and on Schedule HC-B (opening paragraph to the instructions) to include references to ASU 2016-01, which changed the accounting for equity securities and eliminates the concept of available-for-sale equity securities.

On December 12, 2018, the Federal Reserve published in the Federal Register for public comment proposed changes to the FR Y-9C, FR Y-9LP, FR Y-9SP, FR Y-7N, FR Y-8, FR Y-11, FR 2248, FR 2314, FR 2320, FR 2644 and FR 2886b. As described more fully in the *Federal Register* notice,¹ the proposed changes to these reports result from the revised accounting for credit losses under the Financial Accounting Standards Board's Accounting Standards Update No. 2016-13, "Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" (ASU 2016-13). The proposal also includes reporting changes to the FR Y-9C's regulatory capital schedule in order to align the report with the agencies' December 21, 2018 Final Rule,² which would revise the regulatory capital rules for the implementation of and capital transition for the current expected credit losses methodology in ASU 2016-13. An institution must apply ASU 2016-13 in its FR Y-9C, FR Y-9LP, FR Y-9SP, FR Y-7N, FR Y-8, FR Y-11, FR 2248, FR 2314, FR 2320, FR 2644 and FR 2886b, submissions in accordance with the applicable effective date of the accounting standard, if the institution is required to file such a report. Because ASU 2016-13 sets three different effective dates and includes an option for early adoption, the proposed revisions to these reports arising from the changes in credit loss accounting would begin to take effect March 31, 2019, but would not be fully phased in until December 31, 2022.

Other reporting changes that are addressed in the proposal result from two sections of the Economic Growth, Regulatory Relief, and Consumer Protection Act (EGRRCPA) that affect the information institutions report for high volatility commercial real estate (HVCRE) exposures and reciprocal deposits. These sections of EGRRCPA were effective upon enactment on May 24, 2018, and therefore affected reporting beginning with the second quarter 2018 for the FR Y-9C report. Please refer to the Supplemental Instructions for further information regarding the reporting of acquisition, development, or construction (ADC) loans considered HVCRE exposures and reciprocal deposits. In addition, the agencies have proposed to amend their regulatory capital rules to revise the definition of HVCRE exposure to conform to the statutory definition of an HVCRE ADC loans in Section 214 of EGRRCPA.³

FEDERAL RESERVE BANK *of* NEW YORK

January 18, 2019

3

Holding companies filing FR Y-9 reports (FR Y-9C, FR Y-9LP, FR Y-9SP, and the FR Y-9ES) are required to submit each report electronically. Holding companies must maintain in their files a manually signed and attested printout of the data submitted. The cover page of the Reserve Bank supplied report forms should be used to fulfill the signature and attestation requirement and this page should be attached to the printout placed in the bank holding company's files.

For institutions that submit the FR Y-11 and the FR Y-12 reports electronically, a manually signed and attested printout of the data submitted must be maintained in their files. For institutions that do not choose to file this report electronically, the Federal Reserve will continue to accept paper copy submissions.

If you complete the preparation, editing, and review of your report(s) before the submission deadline, please file the report(s) immediately rather than waiting. Early submission provides for additional time for your institution to become accustomed with the new enhanced electronic submission process, and aids the Federal Reserve in the editing, review, and analysis of the reports. If you later find that certain information needs to be revised, please make the appropriate changes to your report and promptly submit the revised data.

The Federal Reserve developed Reporting Central to enhance the overall reporting functionality of the Federal Reserve Banks' data collection and processing activities. These enhancements will allow for a more secure, technically advanced, and efficient system that will encompass a single point of entry for electronic submission and file uploads. Financial and nonfinancial institutions will access Reporting Central via the FedLine® Web Access Solutions site to submit reports and gain access to electronic reporting applications, report forms, and instructions. Additional information about the Reporting Central application, including an online resource center, is available at: <http://www.frb services.org/centralbank/reportingcentral/index.html>. If you have any questions regarding Reporting Central, please contact your Reporting and Reserves District Contact.

One aspect of the transition to Reporting Central necessitates the Federal Reserve to modify its internal procedures for handling confidentiality requests for those institutions that submit data electronically. Generally, individual respondent data collected on the FR Y-9C, FR Y-9LP and the FR Y-9SP are made readily available on the National Information Center public website (<http://www.ffiec.gov/nicpubweb/nicweb/nichome.aspx>) and the FR Y-9ES, FR Y-11/S and FR Y-12 reports are available to the public upon request on an individual basis. All data are published, with the exception of items deemed confidential per the report's instructions, unless the individual holding company from which the data were collected has been granted confidential treatment or has a request pending. A holding company may request confidential treatment for the entire report or for specific items on the report. To better facilitate confidentiality requests and ensure the data are properly handled during the review of the request, the Federal Reserve strongly encourages institutions that are of the opinion that disclosure of certain commercial or financial information in the report would likely result in substantial harm to its (or its subsidiaries') competitive position or that disclosure of the submitted personal information would result in unwarranted invasion of personal privacy to:

FEDERAL RESERVE BANK *of* NEW YORK

January 18, 2019

4

- (1) notify their Reserve Bank of their intent to request confidential treatment in advance of the written request and
- (2) send the confidentiality request in writing prior to data submission.

For institutions that do not submit data electronically, written requests for confidentiality may be provided concurrently with the paper submission of the report.

For more information on confidentiality requests, please see the specific report General Instructions. **Note:** The information referenced above pertains to the existing manual process for submitting confidentiality requests. The final notice to add the confidentiality check box to the front page of the FR Y-9C, FR Y-9LP, FR Y-9SP, FR Y-9ES, FR Y-11/S, and FR Y-12 forms was published in the Federal Register.⁴ The implementation date for the new confidentiality check box procedures has not been determined. Institutions will be provided with ample notice so that they may prepare for submission of the new confidentiality check box requirements.

The Federal Reserve publishes holding company FR Y-9 report submissions on the internet at <http://www.ffiec.gov/nicpubweb/nicweb/nichome.aspx>. Data is published on a flow basis within two days following receipt of a submission from the holding company, and updates are run nightly to capture any revisions subsequently submitted by the reporting institutions.

Institutions may subscribe to the Federal Reserve Board e-mail notification service to receive alerts regarding report form and instruction updates at: <http://www.federalreserve.gov/reportforms/whats-new.htm>. These updates include changes related to proposed new and existing data collections and final reporting forms and instructions.

Supplemental instructions concerning current accounting and reporting issues affecting the FR Y-9 series of reports are provided in Attachment 1. There were no changes to data edits for the December 31, 2018 report period.

⁴ 80 FR 52282 (August 28, 2015)

Subscription Service

We offer a subscription service, which enables you to receive recent news and updates on our reporting forms and instructions and upcoming events. You can sign up for this service at the following website: http://service.govdelivery.com/service/subscribe.html?code=USFRBNEWYORK_8.

Institutions may subscribe to the Federal Reserve Board e-mail notification service to receive alerts regarding report form and instruction updates at: <http://www.federalreserve.gov/reportforms/whats-new.htm>. These updates include changes related to proposed new and existing data collections and final reporting forms and instructions.

Reports Submission

The submission deadline for **FR Y-9C, FR Y-9LP, FR Y-9SP** filers is Thursday, February 14, 2019. Any **FR Y-9C, FR Y-9LP, FR Y-9SP** reports received after 5:00 p.m. on February 14, 2019 will be considered late.

The submission deadline for **FR Y-12** filers is Thursday, February 14, 2019. Any **FR Y-12** reports received after 5:00 p.m. on February 14, 2019 will be considered late unless postmarked by February 11, 2019 or sent by overnight service by February 13, 2019.

The submission deadline for **FR Y-12A** filers is Friday, February 15, 2019. Any **FR Y-12A** reports received after 5:00 p.m. on February 15, 2019 will be considered late unless postmarked by February 12, 2019 or sent by overnight service by February 14, 2019.

The submission deadline for **FR Y-11/S, FR 2314/S, and FR Y-7N/S** filers is Friday, March 1, 2019. Any **FR Y-11/S, FR 2314/S, or FR Y-7N/S** report received after 5:00 p.m. on March 1, 2019 will be considered late, unless postmarked by February 26, 2019 or sent by overnight service by February 28, 2019.

The submission deadline for **FR Y-9ES** filers is Wednesday, July 31, 2019. Any **FR Y-9ES** reports received after 5:00 p.m. on July 31, 2019 will be considered late, unless postmarked by July 28, 2019, or sent overnight service by July 30, 2019.

Submission of initial data via facsimile, even if prior to this deadline does not constitute an official filing. In view of this, please be sure that completed reports are submitted on time to:

**Federal Reserve Bank of New York

Questions regarding the submission of these reports should be addressed to Jessica Smith, Manager, at (212) 720-1360.

Questions regarding the reporting requirements of these reports should be addressed to Jessica Crawford-Eka, Manager, at (212) 720-5862.

Questions regarding the capital adequacy guidelines should be directed to Heidi Kim in the Supervision Policy & Strategy Group at (212) 720-6480.

Sincerely,

Alex Santana
Assistant Vice President

ATTACHMENT 1**Supplemental Instructions****Reporting High Volatility Commercial Real Estate (HVCRE) Exposures**

Section 214 of the Economic Growth, Regulatory Relief, and Consumer Protection Act (EGRRCPA), which was enacted on May 24, 2018, adds a new Section 51 to the Federal Deposit Insurance Act (FDI Act) governing the risk-based capital requirements for certain acquisition, development, or construction (ADC) loans. EGRRCPA provides that, effective upon enactment, the banking agencies may only require a depository institution to assign a heightened risk weight to an HVCRE exposure if such exposure is an “HVCRE ADC Loan,” as defined in this new law. Accordingly, an institution is permitted to risk weight at 150 percent only those commercial real estate exposures it believes meet the statutory definition of an “HVCRE ADC Loan.” When reporting HVCRE exposures in the Call Report regulatory capital schedule (Schedule RC-R) as of June 30, 2018, and subsequent report dates, institutions may use available information to reasonably estimate and report only “HVCRE ADC Loans” held for sale and held for investment in Schedule RC-R, Part II, items 4.b and 5.b, respectively. Any “HVCRE ADC Loans” held for trading would be reported in Schedule RC-R, Part II, item 7. The portion of any “HVCRE ADC Loan” that is secured by collateral or has a guarantee that qualifies for a risk weight lower than 150 percent may continue to be assigned a lower risk weight when completing Schedule RC-R, Part II. Institutions may refine their estimates of “HVCRE ADC Loans” in good faith as they obtain additional information, but they will not be required to amend Call Reports previously filed for report dates on or after June 30, 2018, as these estimates are adjusted.

Alternatively, institutions may continue to report and risk weight HVCRE exposures in a manner consistent with the current Call Report instructions for Schedule RC-R, Part II, until the agencies take further action.

To avoid the regulatory burden associated with applying different definitions for HVCRE exposures within a single organization, the Federal Reserve will not take action to require a BHC, savings and loan holding company, or intermediate holding company of a foreign bank to estimate and report HVCRE on Schedule HC-R, Part II, items 4.b, 5.b, and 7 of the FR Y-9C consistent with the existing regulatory requirements and reporting form instructions if the holding company reports HVCRE in a manner consistent with its subsidiary depository institution(s) on the Call Report. A holding company may also continue to report and risk-weight HVCRE exposures in a manner consistent with the current instructions to Schedule HC-R, Part II of the FR Y-9C. For more detail see the agencies’ proposal to amend their regulatory capital rules to revise the definition of an HVCRE exposure to conform to the statutory definition of an “HVCRE ADC loan” which was published on September 28, 2018.

Section 214 of EGRRCPA, which includes the definition of “HVCRE ADC Loan,” is provided in the Appendix to these Supplemental Instructions for your reference.

Reporting Reciprocal Deposits

Section 202 of EGRRCPA amends Section 29 of the FDI Act to exclude a capped amount of reciprocal deposits from treatment as brokered deposits for qualifying institutions, effective upon enactment. The current Call Report instructions, consistent with the law prior to the enactment of EGRRCPA, treat all reciprocal deposits as brokered deposits. Institutions that wish to report pursuant to the new law for the September 30, 2018, Call Report should apply the newly defined terms and other provisions of Section 202 of EGRRCPA (provided in the Appendix to these Supplemental Instructions for your reference) to determine whether an institution and its reciprocal deposits are eligible for the statutory exclusion. Qualifying institutions may use available information to then reasonably estimate and report as brokered deposits (in Schedule RC-E, Memorandum items 1.b through 1.d), and reciprocal brokered deposits (in Schedule RC-O, item 9 and, if applicable, item 9.a), only those reciprocal deposits that are still considered brokered deposits under the new law.

Alternatively, when reporting as of September 30, 2018, institutions may continue to report reciprocal deposits in Schedules RC-E and RC-O consistent with the current Call Report instructions (i.e., those instructions in effect prior to passage of EGRRCPA).

As a result of the FDIC’s adoption of a final rule related to the treatment of reciprocal deposits, which is effective 30 days after publication in the Federal Register, the FFIEC anticipates issuing additional instructions regarding the reporting of reciprocal deposits in the Call Report beginning as of March 31, 2019. An institution that wishes to amend its reporting of reciprocal deposits in its reports filed for June 30, 2018, through December 31, 2018, may use these additional instructions as the basis for amending its reports.

To avoid the regulatory burden associated with applying different definitions for brokered deposits within a single organization, the Federal Reserve will not take action to require a BHC, savings and loan holding company, or intermediate holding company of a foreign bank to estimate and report brokered deposits on Schedule HC-E, Memorandum items 1 and 2 of the FR Y-9C consistent with the existing regulatory requirements and reporting form instructions if the holding company reports brokered deposits in a manner consistent with its subsidiary depository institution(s) on the Call Report. A holding company may also continue to report brokered deposits in a manner consistent with the current instructions to Schedule HC-E, Memorandum items 1 and 2 of the FR Y-9C.

The Federal Reserve anticipates issuing additional instructions regarding the application of Section 202 to reciprocal deposits for purposes of reporting in the FR Y-9C Report. HCs may use these additional instructions as the basis for amending their reporting of reciprocal deposits still considered brokered deposits in their reports as originally filed for June 30, 2018.

Section 202 of EGRRCPA, which sets forth the limited exception for reciprocal deposits, is presented in the Appendix to these Supplemental Instructions for your reference.

Accounting and Reporting Implications of the New Tax Law

On January 18, 2018, the banking agencies issued an Interagency Statement on Accounting and Reporting Implications of the New Tax Law which was enacted on December 22, 2017, and is commonly known as the Tax Cuts and Jobs Act (the Act). U.S. GAAP requires the effect of changes in tax laws or rates to be recognized in the period in which the legislation is enacted. Thus, in accordance with Accounting Standards Codification (ASC) Topic 740, Income Taxes, the effects of the Act would be recorded in a holding company's FR Y-9C Report for December 31, 2017, because the Act was enacted before year-end 2017. Changes in deferred tax assets (DTAs) and deferred tax liabilities (DTLs) resulting from the Act's lower corporate income tax rate and other applicable provisions of the Act would be reflected in an institution's income tax expense in the period of enactment, i.e., the year-end 2017 FR Y-9C report. HCs should refer to the Interagency Statement for guidance on the remeasurement of DTAs and DTLs, assessing the need for valuation allowances for DTAs, the effect of the remeasurement of DTAs and DTLs on amounts recognized in accumulated other comprehensive income (AOCI), the use for FR Y-9C purposes of the measurement period approach described in the Securities and Exchange Commission's Staff Accounting Bulletin No. 118 and a related FASB Staff Q&A, and regulatory capital effects of the new tax law.

The Interagency Statement notes that the remeasurement of the DTA or DTL associated with an item reported in AOCI, such as unrealized gains (losses) on available-for-sale (AFS) securities, results in a disparity between the tax effect of the item included in AOCI and the amount recorded as a DTA or DTL for the tax effect of this item. However, when the new tax law was enacted, ASC Topic 740 did not specify how this disproportionate, or "stranded," tax effect should be resolved. The Interagency Statement reported that the FASB had approved issuing an Exposure Draft of a proposed Accounting Standards Update (ASU) that would allow reclassification of the disproportionate tax effect from AOCI to retained earnings in financial statements that had not yet been issued. The Interagency Statement advised institutions that they may apply the guidance proposed in the ASU to remedy the disproportionate tax effects of items reported in AOCI when preparing their Call Reports for December 31, 2017.

On February 18, 2018, the Financial Accounting Standards Board (FASB) issued ASU No. 2018-02, "Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income," which allows institutions to eliminate the stranded tax effects resulting from the Act by electing to reclassify these tax effects from AOCI to retained earnings. Thus, this reclassification is permitted, but not required. ASU 2018-02 is effective for all entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption of the ASU is permitted, including in any interim period, as specified in the ASU. A holding company electing to reclassify its stranded tax effects for U.S. GAAP financial reporting purposes should also reclassify these stranded tax effects in the same period for FR Y-9C Report purposes. For additional information, institutions should refer to ASU

January 18, 2019

10

2018-02, which is available at

http://www.fasb.org/jsp/FASB/Document_C/DocumentPage?cid=1176170041017&acceptedDisclaimer=true.

A holding company that elects to reclassify the disproportionate, or stranded, tax effects of items within AOCI to retained earnings should not report any amounts associated with this reclassification in the FR Y-9C Report Schedule HI-A, Changes in Bank Equity Capital, because the reclassification is between two accounts within the equity capital section of Schedule HC, Balance Sheet, and does not result in any change in the total amount of equity capital.

When discussing the regulatory capital effects of the new tax law, the Interagency Statement explains that temporary difference DTAs that could be realized through net operating loss (NOL) carrybacks are treated differently from those that could not be realized through NOL carrybacks (i.e., those for which realization depends on future taxable income) under the agencies' regulatory capital rules. These latter temporary differences DTAs are deducted from common equity tier 1 (CET1) capital if they exceed certain CET1 capital deduction thresholds. However, for tax years beginning on or after January 1, 2018, the Act generally removes the ability to use NOL carrybacks to recover federal income taxes paid in prior tax years. Thus, except as noted in the following sentence, for such tax years, the realization of all federal temporary difference DTAs will be dependent on future taxable income and these DTAs would be subject to the CET1 capital deduction thresholds. Nevertheless, consistent with current practice under the regulatory capital rules, when a holding company has paid federal income taxes for the current tax year, if all federal temporary differences were to fully reverse as of report date during the current tax year and create a hypothetical federal tax loss that would enable the institution to recover federal income taxes paid in the current tax year, the federal temporary difference DTAs that could be realized from this source may be treated as temporary difference DTAs realizable through NOL carrybacks as of the regulatory capital calculation date.

Presentation of Net Benefit Cost in the Income Statement

In March 2017, the FASB issued ASU No. 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," which requires an employer to disaggregate the service cost component from the other components of the net benefit cost of defined benefit plans. In addition, the ASU requires these other cost components to be presented in the income statement separately from the service cost component, which must be reported with the other compensation costs arising during the reporting period.

For holding companies that are public business entities, as defined under U.S. GAAP, ASU 2017-07 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For holding companies that are not public business entities (i.e., that are private companies), the ASU is effective for fiscal years beginning after December 15, 2018, and interim periods beginning after December 15, 2019. Early adoption is permitted as described in the ASU. Refer to the

Glossary entries for “public business entity” and “private company” in the FR Y-9C Report instructions for further information on these terms.

For FR Y-9C purposes, a holding company should apply the new standard prospectively to the cost components of net benefit cost as of the beginning of the fiscal year of adoption. The service cost component of net benefit cost should be reported in Schedule HI, item 7.a, “Salaries and employee benefits.” The other cost components of net benefit cost should be reported in Schedule HI, item 7.d, “Other noninterest expense.”

For additional information, institutions should refer to ASU 2017-07, which is available at http://www.fasb.org/jsp/FASB/Document_C/DocumentPage?cid=1176168888120&acceptedDisclaimer=true.

Credit Losses on Financial Instruments

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-13, “Measurement of Credit Losses on Financial Instruments,” which introduces the current expected credit losses methodology (CECL) for estimating allowances for credit losses. Under CECL, the allowance for credit losses is a valuation account, measured as the difference between the financial assets’ amortized cost basis and the net amount expected to be collected on the financial assets (i.e., lifetime credit losses). To estimate expected credit losses under CECL, holding companies will use a broader range of data than under existing U.S. generally accepted accounting principles (GAAP). These data include information about past events, current conditions, and reasonable and supportable forecasts relevant to assessing the collectability of the cash flows of financial assets.

The ASU is applicable to all financial instruments carried at amortized cost (including loans held for investment, net investment in leases, and held-to-maturity debt securities, as well as trade and reinsurance receivables and receivables that relate to repurchase agreements and securities lending agreements) and off-balance-sheet credit exposures not accounted for as insurance, including loan commitments, standby letters of credit, and financial guarantees. The new standard does not apply to trading assets, loans held for sale, financial assets for which the fair value option has been elected, or loans and receivables between entities under common control.

The ASU also modifies the treatment of credit impairment on available-for-sale (AFS) debt securities. Under the new standard, holding companies will recognize a credit loss on an AFS debt security through an allowance for credit losses, rather than the current practice required by U.S. GAAP of write-downs of individual securities for other-than-temporary impairment.

For holding companies that are public business entities and are also U.S. Securities and Exchange Commission (SEC) filers, as both terms are defined in U.S. GAAP, the ASU is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. For public business entities that are not SEC filers, the ASU is effective for fiscal years beginning after December 15, 2020, including interim periods within those fiscal years. For holding companies that are

not public business entities (i.e., that are private companies), the ASU is at present, effective for fiscal years beginning after December 15, 2020, and for interim periods of fiscal years beginning after December 15, 2021. However, on August 20, 2018, the FASB proposed to amend the transition and effective date provisions in ASU 2016-13 for entities that are not public business entities so that this ASU would be effective for such entities for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. For all holding companies, early application of the new standard is permitted for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Institutions must apply ASU 2016-13 for FR Y-9C purposes in accordance with the effective dates set forth in the ASU as these dates may be amended. A holding company that early adopts ASU 2016-13 for U.S. GAAP financial reporting purposes should also early adopt the ASU in the same period for FR Y-9C purposes.

On December 12, 2018, the Federal Reserve published in the Federal Register for public comment proposed changes to the FR Y-9C, FR Y-9LP, FR Y-9SP, FR Y-7N, FR Y-8, FR Y-11, FR 2248, FR 2314, FR 2320, FR 2644 and FR 2886b. The proposal also includes reporting changes to the FR Y-9C's regulatory capital schedule in order to align the report with the agencies' December 21, 2018 Final Rule, which would revise the regulatory capital rules for the implementation of and capital transition for the current expected credit losses methodology in ASU 2016-13.

Other reporting changes that are addressed in the proposal result from two sections of the Economic Growth, Regulatory Relief, and Consumer Protection Act (EGRRCPA) that affect the information institutions report for high volatility commercial real estate (HVCRE) exposures and reciprocal deposits.

For additional information, institutions should refer to the agencies' Frequently Asked Questions on the New Accounting Standard on Financial Instruments – Credit Losses, which were most recently updated on September 6, 2017, the agencies' June 17, 2016, Joint Statement on the New Accounting Standard on Financial Instruments – Credit Losses, and ASU 2016-13, which is available at http://www.fasb.org/jsp/FASB/Document_C/DocumentPage?cid=1176168232528&acceptedDisclaimer=true.

Accounting for Hedging Activities

In August 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-12, "Targeted Improvements to Accounting for Hedging Activities." This ASU amends Accounting Standards Codification (ASC) Topic 815, Derivatives and Hedging, to "better align an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results."

January 18, 2019

13

For holding companies that are public business entities, as defined under U.S. generally accepted accounting principles (GAAP), the ASU is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. For institutions that are not public business entities (i.e., that are private companies), the ASU is effective for fiscal years beginning after December 15, 2019, and interim periods beginning after December 15, 2020.

Early application of the ASU is permitted for all holding companies in any interim period or fiscal year before the effective date of the ASU. Further, the ASU specifies transition requirements and offers transition elections for hedging relationships existing on the date of adoption (i.e., hedging relationships in which the hedging instrument has not expired, been sold, terminated, or exercised or for which the institution has not removed the designation of the hedging relationship). These transition requirements and elections should be applied on the date of adoption of the ASU and the effect of adoption should be reflected as of the beginning of the fiscal year of adoption (i.e., the initial application date). Thus, if a holding company early adopts the ASU in an interim period, any adjustments shall be reflected as of the beginning of the fiscal year that includes the interim period of adoption, e.g., as of January 1 for a calendar year institution. A holding company that early adopts ASU 2017-12 in an interim period for U.S. GAAP financial reporting purposes should also early adopt the ASU in the same period for FR Y-9C purposes.

The FR Y-9C instructions, including the Glossary entry for “Derivative Contracts,” will be revised to conform to the ASU at a future date.

For additional information, holding companies should refer to ASU 2017-12, which is available at http://www.fasb.org/jsp/FASB/Document_C/DocumentPage?cid=1176169282347&acceptedDisclaimer=true.

Regulatory Capital Treatment of Certain Centrally-Cleared Derivative Contracts

On August 14, 2017, the banking agencies issued supervisory guidance on the regulatory capital treatment of certain centrally-cleared derivative contracts in light of recent changes to the rulebooks of certain central counterparties. Under the previous requirements of these central counterparties’ rulebooks, variation margin transferred to cover the exposure that arises from marking cleared derivative contracts, and netting sets of such contracts, to fair value was considered collateral pledged by one party to the other, with title to the collateral remaining with the posting party. These derivative contracts are referred to as collateralized-to-market contracts. Under the revised rulebooks of certain central counterparties, variation margin for certain centrally-cleared derivative contracts, and certain netting sets of such contracts, is considered a settlement payment for the exposure that arises from marking these derivative contracts and netting sets to fair value, with title to the payment transferring to the receiving party. In these circumstances, the derivative contracts and netting sets are referred to as settled-to-market contracts.

Under the agencies' regulatory capital rules, in general, an institution must calculate the trade exposure amount for a cleared derivative contract, or a netting set of such contracts, by using the methodology described in section 34 of the rules to determine (i) the current credit exposure and (ii) the potential future exposure of the derivative contract or netting set of such contracts for purposes of the standardized approach risk-based capital calculation and the supplementary leverage ratio calculation. The risk-weighted asset calculations under the advanced approaches capital framework have similar requirements. Current credit exposure is determined by reference to the fair value of each derivative contract as measured under U.S. GAAP. Potential future exposure is determined, in part, by multiplying each derivative contract's notional principal amount by a conversion factor. The conversion factors vary by the category (for example, interest rate, equity) and remaining maturity of the derivative contract. The regulatory capital rules provide that, for a derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the fair value of the contract is zero, the remaining maturity equals the time until the next reset date.

For the purpose of the regulatory capital rules, the August 2017 supervisory guidance states that if, after accounting and legal analysis, an institution determines that (i) the variation margin payment on a centrally cleared settled-to-market contract settles any outstanding exposure on the contract, and (ii) the terms are reset so that the fair value of the contract is zero, the remaining maturity on such a contract would equal the time until the next exchange of variation margin on the contract. In conducting its legal analysis to determine whether variation margin may be considered settlement of outstanding exposure under the regulatory capital rules, an institution should evaluate whether the transferor of the variation margin has relinquished all legal claims to the variation margin and whether the payment of variation margin constitutes settlement under the central counterparty's rulebook, any other applicable agreements governing the derivative contract, and applicable law. Among other requirements, a central counterparty's rulebook may require an institution to satisfy additional obligations, such as payment of other expenses and fees, in order to recognize payment of variation margin as satisfying settlement under the rulebook. The legal and accounting analysis performed by the institution should take all such requirements into account.

Holding companies should refer to the supervisory guidance in its entirety for purposes of determining the appropriate regulatory capital treatment of settled-to-market contracts under the regulatory capital rules. This guidance is available at <https://www.fdic.gov/news/news/financial/2017/fil17033a.pdf>.

Premium Amortization on Purchased Callable Debt Securities

In March 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-08, "Premium Amortization on Purchased Callable Debt Securities." This ASU amends Accounting Standards Codification (ASC) Subtopic 310-20, Receivables – Nonrefundable Fees and Other Costs (formerly FASB Statement No. 91, "Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases"), by shortening the amortization period for premiums on callable debt securities that have explicit, non-contingent call

features and are callable at fixed prices and on preset dates. Under existing U.S. generally accepted accounting principles (GAAP), the premium on such a callable debt security generally is required to be amortized as an adjustment of yield over the contractual life of the debt security. Under the ASU, the excess of the amortized cost basis of such a callable debt security over the amount repayable by the issuer at the earliest call date (i.e., the premium) must be amortized to the earliest call date (unless the institution applies the guidance in ASC Subtopic 310-20 that allows estimates of future principal prepayments to be considered in the effective yield calculation when the institution holds a large number of similar debt securities for which prepayments are probable and the timing and amount of the prepayments can be reasonably estimated). If the call option is not exercised at its earliest call date, the institution must reset the effective yield using the payment terms of the debt security.

The ASU does not change the accounting for debt securities held at a discount. The discount on such debt securities continues to be amortized to maturity (unless the Subtopic 310-20 guidance mentioned above is applied).

For holding companies that are public business entities, as defined under U.S. GAAP, the new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. For institutions that are not public business entities (i.e., that are private companies), the new standard is effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Refer to the Glossary entries for “public business entity” and “private company” in the FR Y-9C instructions for further information on these terms.

Early application of the new standard is permitted for all holding companies, including adoption in an interim period of 2017 or a subsequent year before the applicable effective date for a holding company. If a holding company early adopts the ASU in an interim period, the cumulative-effect adjustment shall be reflected as of the beginning of the fiscal year of adoption.

A holding company must apply the new standard on a modified retrospective basis as of the beginning of the period of adoption. Under the modified retrospective method, a holding company should apply a cumulative-effect adjustment to affected accounts existing as of the beginning of the fiscal year the new standard is adopted. The cumulative-effect adjustment to retained earnings for this change in accounting principle should be reported in FR Y-9C Report Schedule HI-A, item 2.

For additional information, institutions should refer to ASU 2017-08, which is available at http://www.fasb.org/jsp/FASB/Document_C/DocumentPage?cid=1176168934053&acceptedDisclaimer=true.

Recognition and Measurement of Financial Instruments: Investments in Equity Securities

In January 2016, the FASB issued ASU 2016-01, “Recognition and Measurement of Financial Assets and Financial Liabilities.” This ASU makes targeted improvements to U.S. GAAP. As one of its main provisions, the ASU requires investments in equity securities, except those accounted for under the equity method and those that result in consolidation, to be measured at fair value with changes in fair

January 18, 2019

16

value recognized in net income. Thus, the ASU eliminates the existing concept of available-for-sale (AFS) equity securities, which are measured at fair value with changes in fair value generally recognized in other comprehensive income. To be classified as AFS under current U.S. GAAP, an equity security must have a readily determinable fair value and not be held for trading. In addition, for an equity security that does not have a readily determinable fair value, the ASU permits an entity to elect to measure the security at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. When this election is made for an equity security without a readily determinable fair value, the ASU simplifies the impairment assessment of such an investment by requiring a qualitative assessment to identify impairment.

The ASU's measurement guidance for investments in equity securities also applies to other ownership interests, such as interests in partnerships, unincorporated joint ventures, and limited liability companies. However, the measurement guidance does not apply to Federal Home Loan Bank and Federal Reserve Bank stock.

For holding companies that are public business entities, as defined under U.S. GAAP, ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For all other entities, the ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early application of the ASU is permitted for all holding companies that are not public business entities as of the fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Holding companies must apply ASU 2016-01 for FR Y-9C purposes in accordance with the effective dates set forth in the ASU.

With the elimination of AFS equity securities upon a holding company's adoption of ASU 2016-01, the amount of net unrealized gains (losses) on these securities, net of tax effect, that is included in accumulated other comprehensive income (AOCI) on the FR Y-9C report balance sheet (Schedule HC, item 26(b)) as of the adoption date will be reclassified (transferred) from AOCI into the retained earnings component of equity capital on the balance sheet (Schedule HC, item 26(a)). Thereafter, changes in the fair value of (i.e., the unrealized gains and losses on) an holding company's equity securities that would have been classified as AFS under existing U.S. GAAP will be recognized through net income rather than other comprehensive income. For holding company's holdings of equity securities without readily determinable fair values as of the adoption date, the measurement provisions of the ASU are to be applied prospectively to these securities.

For additional information, institutions should refer to ASU 2016-01, which is available at http://www.fasb.org/jsp/FASB/Document_C/DocumentPage?cid=1176167762170&acceptedDisclaimer=true.

Recognition and Measurement of Financial Instruments: Fair Value Option Liabilities

In addition to the changes in the accounting for equity securities discussed in the preceding section of these Supplemental Instructions, ASU No. 2016-01 requires a holding company to present separately in other comprehensive income (OCI) the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk (“own credit risk”) when the holding company has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. Until a holding company adopts the own credit risk provisions of the ASU, U.S. GAAP requires the holding company to report the entire change in the fair value of a fair value option liability in earnings. The ASU does not apply to other financial liabilities measured at fair value, including derivatives. For these other financial liabilities, the effect of a change in an entity’s own credit risk will continue to be reported in net income.

The change due to own credit risk, as described above, is the difference between the total change in fair value and the amount resulting from a change in a base market rate (e.g., a risk-free interest rate). A holding company may use another method that it believes results in a faithful measurement of the fair value change attributable to instrument-specific credit risk. However, it will have to apply the method consistently to each financial liability from period to period.

The effective dates of ASU 2016-01 are described in the preceding section of these Supplemental Instructions. Notwithstanding these effective dates, early application of the ASU’s provisions regarding the presentation in OCI of changes due to own credit risk on fair value option liabilities is permitted for all holding companies for financial statements of fiscal years or interim periods that have not yet been issued or made available for issuance, and in the same period for FR Y-9C Report purposes.

When a holding company with a calendar year fiscal year adopts the own credit risk provisions of ASU 2016-01, the accumulated gains and losses as of the beginning of the fiscal year due to changes in the instrument-specific credit risk of fair value option liabilities, net of tax effect, are reclassified from Schedule HC, item 26(a), “Retained earnings,” to Schedule HC, item 26(b), “Accumulated other comprehensive income” (AOCI). If a holding company with a calendar year fiscal year chooses to early apply the ASU’s provisions for fair value option liabilities in an interim period after the first interim period of its fiscal year, any unrealized gains and losses due to changes in own credit risk and the related tax effects recognized in the FR Y-9C Report income statement during the interim period(s) before the interim period of adoption should be reclassified from earnings to OCI. In the FR Y-9C Report, this reclassification would be from Schedule HI, item 5.1, “Other noninterest income,” and Schedule HI, item 9, “Applicable income taxes,” to Schedule HI-A, item 12, “Other comprehensive income,” with a corresponding reclassification from Schedule HC, item 26(a), to Schedule HC, item 26(b).

Additionally, for purposes of reporting on Schedule HC-R, Part I, holding companies should report in item 10.a, “Less: Unrealized net gain (loss) related to changes in the fair value of liabilities that are due to changes in own credit risk,” the amount included in AOCI attributable to changes in the fair value of fair value option liabilities that are due to changes in the holding company’s own credit risk. Holding companies should note that this AOCI amount is included in the amount reported in Schedule HC-R, Part I, item 3, “Accumulated other comprehensive income (AOCI).”

For additional information, institutions should refer to ASU 2016-01, which is available at http://www.fasb.org/jsp/FASB/Document_C/DocumentPage?cid=1176167762170&acceptedDisclaimer=true.

New Revenue Recognition Accounting Standard

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, “Revenue from Contracts with Customers,” which added Topic 606, Revenue from Contracts with Customers, to the Accounting Standards Codification (ASC). The core principle of Topic 606 is that an entity should recognize revenue at an amount that reflects the consideration to which it expects to be entitled in exchange for transferring goods or services to a customer as part of the entity’s ordinary activities. ASU 2014-09 also added Topic 610, Other Income, to the ASC. Topic 610 applies to income recognition that is not within the scope of Topic 606, other Topics (such as Topic 840 on leases), or other revenue or income guidance. As discussed in the following section of these Supplemental Instructions, Topic 610 applies to a holding company’s sales of repossessed nonfinancial assets, such as other real estate owned (OREO). The sale of repossessed nonfinancial assets is not considered an “ordinary activity” because holding companies do not typically invest in nonfinancial assets. ASU 2014-09 and subsequent amendments are collectively referred to herein as the “new standard.” For additional information on this accounting standard and the revenue streams to which it does and does not apply, please refer to the Glossary entry for “Revenue from Contracts with Customers,” which has been added to the FR Y-9C instructions this quarter.

For holding companies that are public business entities, as defined under U.S. generally accepted accounting principles (GAAP), the new standard is effective for fiscal years beginning after December 15, 2017, including interim reporting periods within those fiscal years. For holding companies that are not public business entities (i.e., that are private companies), the new standard is effective for fiscal years beginning after December 15, 2018, and interim reporting periods within fiscal years beginning after December 15, 2019. Early application of the new standard is permitted for all holding companies for fiscal years beginning after December 15, 2016, and interim reporting periods as prescribed in the new standard. If a holding company chooses to early adopt the new standard for financial reporting purposes, the holding company should implement the new standard in its FR Y-9C for the same quarter-end report date.

For FR Y-9C purposes, a holding company must apply the new standard on a modified retrospective basis as of the effective date of the standard. Under the modified retrospective method, a holding company should apply a cumulative-effect adjustment to affected accounts existing as of the beginning of the fiscal year the new standard is adopted. The cumulative-effect adjustment to retained earnings for this change in accounting principle should be reported in the FR Y-9C Schedule HI-A, item 2. A holding company that early adopts the new standard must apply it in its entirety. The holding company cannot choose to apply the guidance to some revenue streams and not to others that are within the scope of the new standard.

For additional information, holding companies should refer to the new standard, which is available at <http://www.fasb.org/jsp/FASB/Page/SectionPage&cid=1176156316498>.

Revenue Recognition: Accounting for Sales of OREO

As stated in the preceding section, Topic 610 applies to a holding company's sale of repossessed nonfinancial assets, such as OREO. When the new standard becomes effective at the dates discussed above, Topic 610 will eliminate the prescriptive criteria and methods for sale accounting and gain recognition for dispositions of OREO currently set forth in ASC Subtopic 360-20, Property, Plant, and Equipment – Real Estate Sales. Under the new standard, a holding company will recognize the entire gain, if any, and derecognize the OREO at the time of sale if the transaction meets the requirements of Topic 606. Otherwise, a holding company will record any payments received as a deposit liability to the buyer and continue reporting the OREO as an asset at the time of the transaction.

The following paragraphs highlight key aspects of Topic 610 that will apply to seller-financed sales of OREO once the new standard takes effect. When implementing the new standard, a holding company will need to exercise judgment in determining whether a contract (within the meaning of Topic 606) exists for the sale or transfer of OREO, whether the holding company has performed its obligations identified in the contract, and what the transaction price is for calculation of the amount of gain or loss. For additional information, please refer to the Glossary entry for "Foreclosed Assets" in the FR Y-9C instructions, which has been updated this quarter to incorporate guidance on the application of the new standard to sales of OREO.

Under Topic 610, a holding company's first step in assessing whether it can derecognize an OREO asset and recognize revenue upon the sale or transfer of the OREO is to determine whether a contract exists under the provisions of Topic 606. In order for a transaction to be a contract under Topic 606, it must meet five criteria. Although all five criteria require careful analysis for seller-financed sales of OREO, two criteria in particular may require significant judgment. These criteria are the commitment of the parties to the transaction to perform their respective obligations and the collectability of the transaction price. To evaluate whether a transaction meets the collectability criterion, a selling holding company must determine whether it is probable that it will collect substantially all of the consideration to which it is entitled in exchange for the transfer of the OREO, i.e., the transaction price. To make this determination, as well as the determination that the buyer of the OREO is committed to perform its

obligations, a holding company should consider all facts and circumstances related to the buyer's ability and intent to pay the transaction price. As with the current accounting standards governing seller-financed sales of OREO, the amount and character of a buyer's initial equity in the property (typically the cash down payment) and recourse provisions remain important factors to evaluate. Other factors to consider may include, but are not limited to, the financing terms of the loan (including amortization and any balloon payment), the credit standing of the buyer, the cash flow from the property, and the selling holding company's continuing involvement with the property following the transaction.

If the five contract criteria in Topic 606 have not been met, the holding company may not derecognize the OREO asset or recognize revenue (gain or loss) as an accounting sale has not occurred. In contrast, if the holding company determines the contract criteria in Topic 606 have been met, it must then determine whether it has satisfied its performance obligations as identified in the contract by transferring control of the asset to the buyer, indicators of which are identified in the new standard. For seller-financed sales of OREO, the transfer of control generally occurs on the closing date of the sale when the holding company obtains the right to receive payment for the property and transfers legal title to the buyer. However, a holding company must consider all relevant facts and circumstances to determine whether control of the OREO has transferred.

When a contract exists and a holding company has transferred control of the asset, the holding company should derecognize the OREO asset and recognize a gain or loss for the difference between the transaction price and the carrying amount of the OREO asset. Generally, the transaction price in a sale of OREO will be the contract amount in the purchase/sale agreement, including for a seller-financed sale financed at market terms. However, the transaction price may differ from the amount stated in the contract due to the existence of below market terms on the financing. In this situation, the contract amount should be adjusted for the time value by using as the discount rate a market rate of interest considering the credit characteristics of the buyer and the terms of the financing.

As stated in the preceding section, for FR Y-9C purposes, holding companies must apply the new standard on a modified retrospective basis. To determine the cumulative-effect adjustment for the change in accounting for seller-financed OREO sales, holding companies should measure the impact of applying Topic 610 to the outstanding seller-financed sales of OREO currently accounted for under Subtopic 360-20 using the installment, cost recovery, reduced-profit, or deposit method as of the beginning of the fiscal year the new standard is adopted. The cumulative-effect adjustment to retained earnings for this change in accounting principle should be reported in FR Y-9C Schedule HI-A, item 2.

Accounting for Leases

In February 2016, the FASB issued ASU 2016-02, "Leases," which added ASU Topic 842, Leases. This guidance, once effective, supersedes ASC Topic 840, Leases.

Topic 842 does not fundamentally change lessor accounting; however, it aligns terminology between lessee and lessor accounting and brings key aspects of lessor accounting into alignment with the FASB's new revenue recognition guidance in ASC Topic 606. As a result, the classification difference between direct financing leases and sales-type leases for lessors moves from a risk-and-rewards principle to a transfer of control principle. Additionally, there is no longer a distinction in the treatment of real estate and non-real estate leases by lessors.

The most significant change that Topic 842 makes is to lessee accounting. Under existing accounting standards, lessees recognize lease assets and lease liabilities on the balance sheet for capital leases, but do not recognize operating leases on the balance sheet. The lessee accounting model under Topic 842 retains the distinction between operating leases and capital leases, which the new standard labels finance leases. However, the new standard requires lessees to record a right-of-use (ROU) asset and a lease liability on the balance sheet for operating leases. (For finance leases, a lessee's lease asset also is designated an ROU asset.) In general, the new standard permits a lessee to make an accounting policy election to exempt leases with a term of one year or less at their commencement date from on-balance sheet recognition. The lease term generally includes the noncancellable period of a lease as well as purchase options and renewal options reasonably certain to be exercised by the lessee, renewal options controlled by the lessor, and any other economic incentive for the lessee to extend the lease. An economic incentive may include a related-party commitment. When preparing to implement Topic 842, lessees will need to analyze their existing lease contracts to determine the entries to record on adoption of this new standard.

For a sale-leaseback transaction to qualify for sales treatment, Topic 842 requires certain criteria within Topic 606 to be met. Topic 606 focuses on the transfer of control of the leased asset from the seller/lessee to the buyer/lessor. A sale-leaseback transaction that does not transfer control is accounted for as a financing arrangement. For a transaction currently accounted for as a sale-leaseback under existing GAAP, an entity is not required to reassess whether the transaction would have qualified as a sale and a leaseback under Topic 842 when it adopts the new standard.

Leases classified as leveraged leases prior to the adoption of Topic 842 may continue to be accounted for under Topic 840 unless subsequently modified. Topic 842 eliminates leveraged lease accounting for leases that commence after an entity adopts the new accounting standard.

For holding companies that are public business entities, as defined by U.S. generally accepted accounting principles (GAAP), ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim reporting periods within those fiscal years. For holding companies that are not public business entities, the new standard is effective for fiscal years beginning after December 15, 2019, and interim reporting periods within fiscal years beginning after December 15, 2020. Early application of the new standard is permitted for all holding companies. A holding company that early adopts the new standard must apply it in its entirety to all lease-related transactions. If a holding company chooses to early adopt the new standard for financial reporting purposes, the holding company should implement the new standard in its FR Y-9C report for the same quarter-end report date.

January 18, 2019

22

For FR Y-9C purposes, a holding company must apply the new standard on a modified retrospective basis. Under the modified retrospective method, a holding company should apply a cumulative-effect adjustment to affected accounts existing as of the beginning of the fiscal year the new standard is adopted. The cumulative-effect adjustment to retained earnings for this change in accounting principle should be reported in Schedule HI-A, item 2. The ROU asset recorded upon adoption should be reflected in Schedule HC, item 6, “Premises and fixed assets” and the related lease liability recorded upon adoption should be reflected in Schedule HC-M, item 14, “Other borrowed money.” These classifications are consistent with the current FR Y-9C instructions for reporting lessee capital leases.

For additional information on ASU 2016-02, holding companies should refer to the FASB’s website at: http://www.fasb.org/cs/ContentServer?c=FASBContent_C&pagename=FASB%2FFASBContent_C%2FCompletedProjectPage&cid=1176167904031, which includes a link to the new accounting standard.

Classification and Measurement of Financial Instruments: Fair Value Option Liabilities

In January 2016 FASB completed its Classification and Measurement of Financial Instruments project by issuing ASU No. 2016-01, “Recognition and Measurement of Financial Assets and Financial Liabilities.

This ASU makes targeted improvements to U.S. generally accepted accounting principles (GAAP). It includes requiring a holding company to present separately in other comprehensive income (OCI) the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk (own credit risk) when the holding company has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. Prior to the new ASU, U.S. GAAP required holding companies to report the entire change in fair value of such an instrument in earnings. The effect of a change in an entity’s own credit risk for other financial liabilities measured at fair value, including derivatives, will continue to be reported in net income.

The change due to own credit risk, as described above, is the difference between the total change in fair value and the amount resulting from a change in a base market rate (e.g., a risk-free interest rate). A holding company may use another method that it believes results in a faithful measurement of the fair value change attributable to instrument-specific credit risk. However, it will have to apply the method consistently to each financial liability from period to period.

For public business entities, as defined under U.S. GAAP, the ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For all other holding companies, the ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early application of the ASU is permitted for all holding companies that are not public business entities as of the fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Additionally, early application of the provisions regarding the presentation in OCI of changes due to own credit risk, as described above, is

permitted for all holding companies for financial statements of fiscal years or interim periods that have not yet been issued or made available for issuance, and in the same period for FR Y-9C Report purposes.

When a holding company with a calendar year fiscal year adopts ASU 2016-01, the accumulated gains and losses as of the beginning of the fiscal year due to changes in the instrument-specific credit risk of fair value option liabilities, net of tax effect, are reclassified from Schedule HC, item 26(a), "Retained earnings," to Schedule HC, item 26(b), "Accumulated other comprehensive income" (AOCI). If a holding company with a calendar year fiscal year chooses to early apply the ASU's provisions for fair value option liabilities in an interim period after the first interim period of its fiscal year, any unrealized gains and losses due to changes in own credit risk and the related tax effects recognized in the FR Y-9C Report income statement during the interim period(s) before the interim period of adoption should be reclassified from Schedule RI, item 5(l), "Other noninterest income," and Schedule HI, item 9, "Applicable income taxes," to Schedule HI-A, item 12, "Other comprehensive income," with a corresponding reclassification from Schedule HC, item 26(a) to Schedule HC, item 26(b).

Additionally, for purposes of reporting on Schedule HC-R, Part I, holding companies should report in item 10(a), "Less: Unrealized net gain (loss) related to changes in the fair value of liabilities that are due to changes in own credit risk," the amount included in AOCI attributable to changes in the fair value of fair value option liabilities that are due to changes in the holding company's own credit risk. Holding companies should note that this AOCI amount is included in the amount reported in Schedule HC-R, Part I, item 3, "Accumulated other comprehensive income (AOCI)."

For additional information, holding companies should refer to ASU 2016-01, which is available at <http://www.fasb.org/jsp/FASB/Page/SectionPage&cid=1176156316498>.

Accounting for Measurement-Period Adjustments Related to a Business Combination

In September 2015, FASB issued Accounting Standards Update ASU No. 2015-16, "Simplifying the Accounting for Measurement-Period Adjustments." Under Accounting Standards Codification Topic 805, Business Combinations (formerly FASB Statement No. 141(R), "Business Combinations"), if the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the acquirer reports provisional amounts in its financial statements for the items for which the accounting is incomplete. During the measurement period, the acquirer is required to adjust the provisional amounts recognized at the acquisition date, with a corresponding adjustment to goodwill, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognized as of that date. At present under Topic 805, an acquirer is required to retrospectively adjust the provisional amounts recognized at the acquisition date to reflect the new information. To simplify the accounting for the adjustments made to provisional amounts, ASU 2015-16 eliminates the requirement to retrospectively account for the adjustments. Accordingly, the ASU amends Topic 805 to require an acquirer to recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which adjustment amounts are determined. Under the ASU, the acquirer also must recognize in the financial

statements for the same reporting period the effect on earnings, if any, resulting from the adjustments to the provisional amounts as if the accounting for the business combination had been completed as of the acquisition date.

In general, the measurement period in a business combination is the period after the acquisition date during which the acquirer may adjust provisional amounts reported for identifiable assets acquired, liabilities assumed, and consideration transferred for the acquiree for which the initial accounting for the business combination is incomplete at the end of the reporting period in which the combination occurs. Topic 805 provides additional guidance on the measurement period, which shall not exceed one year from the acquisition date, and adjustments to provisional amounts during this period.

For institutions that are public business entities, as defined under U.S. GAAP, ASU 2015-16 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. For institutions that are not public business entities (i.e., that are private companies), the ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017. The ASU's amendments to Topic 805 should be applied prospectively to adjustments to provisional amounts that occur after the effective date of the ASU. Thus, holding companies with a calendar year fiscal year that are public business entities must apply the ASU to any adjustments to provisional amounts that occur after January 1, 2016, beginning with their FR Y-9C report for March 31, 2016. Holding companies with a calendar year fiscal year that are private companies must apply the ASU to any FR Y-9C Reports for December 31, 2017. Early application of ASU 2015-16 is permitted in FR Y-9C reports that have not been submitted.

For additional information, institutions should refer to ASU 2015-16, which is available at <http://www.fasb.org/jsp/FASB/Page/SectionPage&cid=1176156316498>.

Other Reporting Matters

For the following topics, holding companies should continue to follow the guidance in the specified FR Y-9C Supplemental Instructions:

Reporting Exposures Hedged with Cleared Eligible Credit Derivatives in Schedule HC-R

Holding companies should continue to follow the guidance for Reporting Exposures Hedged with Cleared Eligible Credit Derivatives in Schedule HC-R that was included in the FR Y-9C Supplemental Instructions for December 2016. These instructions can be accessed via the Federal Reserve's website (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201612.pdf).

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share

Holding companies should continue to follow the guidance for Disclosures for Investments in Certain Entities that Calculate Net Asset Value per share that was included in the FR Y-9C Supplemental Instructions for December 2016. These instructions can be accessed via the Federal Reserve's website (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201612.pdf).

Debt Issuance Cost

Holding companies should continue to follow the guidance for Debt Issuance Cost that was included in the FR Y-9C Supplemental Instructions for September 2016. These instructions can be accessed via the Federal Reserve's website (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201609.pdf).

Accounting for Subsequent Restructuring of a Troubled Debt Restructuring

Holding companies should continue to follow the guidance for Accounting for Subsequent Restructuring of a Troubled Debt Restructuring that was included in the FR Y-9C Supplemental Instructions for September 2016. These instructions can be accessed via the Federal Reserve's website (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201609.pdf).

Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans Upon a Foreclosure

Holding companies should continue to follow the guidance for Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans Upon a Foreclosure that was included in the FR Y-9C Supplemental Instructions for September 2016. These instructions can be accessed via the Federal Reserve's website (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201609.pdf).

Reporting Certain Government-Guaranteed Mortgage Loans upon Foreclosure

Holding companies should continue to follow the guidance for Reporting Certain Government-Guaranteed Mortgage Loans upon Foreclosure that was included in the FR Y-9C Supplemental Instructions for September 2016. These instructions can be accessed via the Federal Reserve's website (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201609.pdf).

Secured Consumer Debt Discharged in a Chapter 7 Bankruptcy Order

Holding companies should continue to follow the guidance for Secured Consumer Debt Discharged in a Chapter 7 Bankruptcy Order that was included in the FR Y-9C Supplemental Instructions for December, 2015. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201512.pdf).

True Up Liability under an FDIC Loss-Sharing Agreement

Holding companies should continue to follow the guidance for True up liability under an FDIC loss-sharing agreement that was included in the FR Y-9C Supplemental Instructions for September, 2015. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201509.pdf).

Purchased Loans Originated by Others

Holding companies should continue to follow the guidance for purchased loans originated by others that was included in the FR Y-9C Supplemental Instructions for September, 2015. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201509.pdf).

Troubled Debt Restructurings, Current Market Interest Rates, and ASU No. 2011-02

Holding companies should continue to follow the guidance for troubled debt restructurings that was included in the FR Y-9C Supplemental Instructions for March 31, 2015. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201503.pdf).

Indemnification Assets and Accounting Standards Update No. 2012-06

Holding companies should continue to follow the guidance for indemnification assets that was included in the FR Y-9C Supplemental Instructions for June 30, 2014. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201406.pdf).

Determining the Fair Value of Derivatives

Holding companies should continue to follow the guidance in determining the fair value of derivatives that was included in the FR Y-9C Supplemental Instructions for June 30, 2014. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201406.pdf).

Other- Than- Temporary Impairment

Holding companies should continue to follow the guidance on reporting other-than- temporary- impairment that was included in the FR Y-9C Supplemental Instructions for June 30, 2014. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201406.pdf).

Reporting Defined Benefit Postretirement Plans

Holding companies should continue to follow the guidance regarding the reporting of defined benefit postretirement plans that was included in the FR Y-9C Supplemental Instructions for June 30, 2013. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201306.pdf).

Goodwill Impairment Testing

Holding companies should continue to follow the guidance regarding reporting related to goodwill impairment testing that was included in the FR Y-9C Supplemental Instructions for March 31, 2013. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201303.pdf).

Small Business Lending Fund

Holding companies should continue to follow the guidance regarding reporting related to the U.S. Treasury Department's Small Business Lending Fund (SBLF) that was included in the FR Y-9C Supplemental Instructions for March 31, 2013. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201303.pdf).

Treasury Department's Community Development Capital Initiative Program

Holding companies should continue to follow the guidance regarding reporting related to the Treasury Department's Community Development Capital Initiative Program that was included in the FR Y-9C Supplemental Instructions for September 30, 2012. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201209.pdf).

Reporting Purchased Subordinated Securities in Schedule HC-S

Holding companies should continue to follow the guidance on reporting purchased subordinated securities in Schedule HC-S that was included in the FR Y-9C Supplemental Instructions for September 30, 2011. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201109.pdf).

Consolidated Variable Interest Entities

Holding companies should continue to follow the guidance on reporting and accounting for consolidated variable interest entities that was included in the FR Y-9C Supplemental Instructions for September 30, 2011. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201109.pdf).

Treasury Department's Capital Purchase Program

Holding companies should continue to follow the guidance on accounting and reporting for the U.S. Treasury Department's Capital Purchase Program (CPP) under the Troubled Asset Relief Program mandated by the Emergency Economic Stabilization Act of 2008 that was included in the FR Y-9C Supplemental Instructions for September 30, 2011. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201109.pdf).

Accounting Standards Codification

A description of the adoption of FASB Statement No. 168, "The FASB Accounting Standards CodificationTM and the Hierarchy of Generally Accepted Accounting Principles" was included in the FR Y-9C Supplemental Instructions for September 30, 2011. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201109.pdf).

Extended Net Operating Loss Carryback Period

Holding companies should continue to follow the guidance on accounting for the extended net operating loss carryback period under the Worker, Homeownership, and Business Assistance Act of 2009, that was included in the FR Y-9C Supplemental Instructions for December 31, 2010. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_201012.pdf).

FASB Interpretation No. 48 on Uncertain Tax Positions

Holding companies should continue to follow the guidance on accounting for uncertain tax positions under FASB Interpretation No. 48 that was included in the FR Y-9C Supplemental Instructions for December 31, 2009. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_200912.pdf).

Business Combinations and Noncontrolling (Minority) Interests

Holding companies should continue to follow the guidance on accounting for business combinations and noncontrolling (minority) interests under FASB Statements Nos. 141(R) and 160 that was included in the FR Y-9C Supplemental Instructions for September 30, 2009. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_200909.pdf).

Fair Value Measurement and Fair Value Option

Holding companies should continue to follow the guidance on fair value measurements under FASB Statement No. 157, *Fair Value Measurements*, and the guidance on implementing the fair value option under FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, that was included in the FR Y-9C Supplemental Instructions for June 30, 2009. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_200906.pdf).

Accounting for Share-based Payments

Holding companies should continue to follow the guidance on accounting for share-based payments under FASB Statement No. 123 (Revised 2004), *Share-Based Payment* (FAS 123(R)), that was included in the FR Y-9C Supplemental Instructions for December 31, 2006. These instructions can be accessed via the Federal Reserve's Web site (http://www.federalreserve.gov/reportforms/supplemental/SI_FRY9_200612.pdf).

Tobacco Transition Payment Program

Holding companies should continue to follow guidance on the tobacco buyout program included in the FR Y-9C Supplemental Instructions for June 30, 2006, which can be accessed via the Federal Reserve's Web site (<http://www.federalreserve.gov/reportforms/supplemental/SI.FRY9.200606.pdf>).

January 18, 2019
29

Commitments to Originate and Sell Mortgage Loans

Holding companies should continue to follow the guidance provided on this subject in the FR Y-9C Supplemental Instructions provided for December 31, 2005. These Supplemental Instructions can be accessed via the Federal Reserve's Web site (<http://www.federalreserve.gov/reportforms/supplemental/SI.FRY9.200512.pdf>).

APPENDIX

Section 214 of EGRRCPA, which includes the definition of “HVCRE ADC Loan,” is as follows:

SEC. 214. PROMOTING CONSTRUCTION AND DEVELOPMENT ON MAIN STREET.

The Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.) is amended by adding at the end the following new section:

The Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.) is amended by adding at the end the following new section:

“SEC. 51. Capital requirements for certain acquisition, development, or construction loans.

“(a) In general.—The appropriate Federal banking agencies may only require a depository institution to assign a heightened risk weight to a high volatility commercial real estate (HVCRE) exposure (as such term is defined under section 324.2 of title 12, Code of Federal Regulations, as of October 11, 2017, or if a successor regulation is in effect as of the date of the enactment of this section, such term or any successor term contained in such successor regulation) under any risk-based capital requirement if such exposure is an HVCRE ADC loan.

“(b) HVCRE ADC loan defined.—For purposes of this section and with respect to a depository institution, the term ‘HVCRE ADC loan’—

“(1) means a credit facility secured by land or improved real property that, prior to being reclassified by the depository institution as a non-HVCRE ADC loan pursuant to subsection (d)—

“(A) primarily finances, has financed, or refinances the acquisition, development, or construction of real property;

“(B) has the purpose of providing financing to acquire, develop, or improve such real property into income-producing real property; and

“(C) is dependent upon future income or sales proceeds from, or refinancing of, such real property for the repayment of such credit facility;

“(2) does not include a credit facility financing—

“(A) the acquisition, development, or construction of properties that are—

“(i) one- to four-family residential properties;

“(ii) real property that would qualify as an investment in community development; or

“(iii) agricultural land;

“(B) the acquisition or refinance of existing income-producing real property secured by a mortgage on such property, if the cash flow being generated by the real property is sufficient to support the debt service and expenses of the real property, in accordance with the institution’s applicable loan underwriting criteria for permanent financings;

“(C) improvements to existing income-producing improved real property secured by a mortgage on such property, if the cash flow being generated by the real property is sufficient to support the debt service and expenses of the real property, in accordance with the institution’s applicable loan underwriting criteria for permanent financings; or

“(D) commercial real property projects in which—

“(i) the loan-to-value ratio is less than or equal to the applicable maximum supervisory loan-to-value ratio as determined by the appropriate Federal banking agency;

“(ii) the borrower has contributed capital of at least 15 percent of the real property’s appraised, ‘as completed’ value to the project in the form of—

“(I) cash;

“(II) unencumbered readily marketable assets;

“(III) paid development expenses out-of-pocket; or

“(IV) contributed real property or improvements; and

“(iii) the borrower contributed the minimum amount of capital described under clause (ii) before the depository institution advances funds (other than the advance of a nominal sum made in order to secure the depository institution’s lien against the real property) under the credit facility, and such minimum amount of capital contributed by the borrower is contractually required to remain in the project until the credit facility has been reclassified by the depository institution as a non-HVCRE ADC loan under subsection (d);

“(3) does not include any loan made prior to January 1, 2015; and

“(4) does not include a credit facility reclassified as a non-HVCRE ADC loan under subsection (d).

“(c) Value of contributed real property.—For purposes of this section, the value of any real property contributed by a borrower as a capital contribution shall be the appraised value of the property as determined under standards prescribed pursuant to section 1110 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3339), in connection with the extension of the credit facility or loan to such borrower.

“(d) Reclassification as a non-HVCRE ADC loan.—For purposes of this section and with respect to a credit facility and a depository institution, upon—

“(1) the substantial completion of the development or construction of the real property being financed by the credit facility; and

“(2) cash flow being generated by the real property being sufficient to support the debt service and expenses of the real property,

in accordance with the institution’s applicable loan underwriting criteria for permanent financings, the credit facility may be reclassified by the depository institution as a Non-HVCRE ADC loan.

“(e) Existing authorities.—Nothing in this section shall limit the supervisory, regulatory, or enforcement authority of an appropriate Federal banking agency to further the safe and sound operation of an institution under the supervision of the appropriate Federal banking agency.”.

* * * * *

Section 202 of EGRRCPA, which creates a limited exception for certain reciprocal deposits, is as follows:

SEC. 202. LIMITED EXCEPTION FOR RECIPROCAL DEPOSITS.

SEC. 202. Limited exception for reciprocal deposits.

(a) In general.—Section 29 of the Federal Deposit Insurance Act (12 U.S.C. 1831f) is amended by adding at the end the following:

“(i) Limited exception for reciprocal deposits.—

“(1) IN GENERAL.—Reciprocal deposits of an agent institution shall not be considered to be funds obtained, directly or indirectly, by or through a deposit broker to the extent that the total amount of such reciprocal deposits does not exceed the lesser of—

“(A) \$5,000,000,000; or

“(B) an amount equal to 20 percent of the total liabilities of the agent institution.

“(2) DEFINITIONS.—In this subsection:

“(A) AGENT INSTITUTION.—The term ‘agent institution’ means an insured depository institution that places a covered deposit through a deposit placement network at other insured depository institutions in amounts that are less than or equal to the standard maximum deposit insurance amount, specifying the interest rate to be paid for such amounts, if the insured depository institution—

“(i) (I) when most recently examined under section 10(d) was found to have a composite condition of outstanding or good; and

“(II) is well capitalized;

“(ii) has obtained a waiver pursuant to subsection (c); or

“(iii) does not receive an amount of reciprocal deposits that causes the total amount of reciprocal deposits held by the agent institution to be greater than the average of the total amount of reciprocal deposits held by the agent institution on the last day of each of the 4 calendar quarters preceding the calendar quarter in which the agent institution was found not to have a composite condition of outstanding or good or was determined to be not well capitalized.

“(B) COVERED DEPOSIT.—The term ‘covered deposit’ means a deposit that—

“(i) is submitted for placement through a deposit placement network by an agent institution; and

“(ii) does not consist of funds that were obtained for the agent institution, directly or indirectly, by or through a deposit broker before submission for placement through a deposit placement network.

FEDERAL RESERVE BANK *of* NEW YORK

January 18, 2019

33

“(C) DEPOSIT PLACEMENT NETWORK.—The term ‘deposit placement network’ means a network in which an insured depository institution participates, together with other insured depository institutions, for the processing and receipt of reciprocal deposits.

“(D) NETWORK MEMBER BANK.—The term ‘network member bank’ means an insured depository institution that is a member of a deposit placement network.

“(E) RECIPROCAL DEPOSITS.—The term ‘reciprocal deposits’ means deposits received by an agent institution through a deposit placement network with the same maturity (if any) and in the same aggregate amount as covered deposits placed by the agent institution in other network member banks.

“(F) WELL CAPITALIZED.—The term ‘well capitalized’ has the meaning given the term in section 38(b)(1).”.

(b) Interest rate restriction.—Section 29 of the Federal Deposit Insurance Act (12 U.S.C. 1831f) is amended by striking subsection (e) and inserting the following:

“(e) Restriction on interest rate paid.—

“(1) DEFINITIONS.—In this subsection—

“(A) the terms ‘agent institution’, ‘reciprocal deposits’, and ‘well capitalized’ have the meanings given those terms in subsection (i); and

“(B) the term ‘covered insured depository institution’ means an insured depository institution that—

“(i) under subsection (c) or (d), accepts funds obtained, directly or indirectly, by or through a deposit broker; or

“(ii) while acting as an agent institution under subsection (i), accepts reciprocal deposits while not well capitalized.

“(2) PROHIBITION.—A covered insured depository institution may not pay a rate of interest on funds or reciprocal deposits described in paragraph (1) that, at the time that the funds or reciprocal deposits are accepted, significantly exceeds the limit set forth in paragraph (3).

“(3) LIMIT ON INTEREST RATES.—The limit on the rate of interest referred to in paragraph (2) shall be—

“(A) the rate paid on deposits of similar maturity in the normal market area of the covered insured depository institution for deposits accepted in the normal market area of the covered insured depository institution; or

“(B) the national rate paid on deposits of comparable maturity, as established by the Corporation, for deposits accepted outside the normal market area of the covered insured depository institution.”.

Revisions to the FR Y-9C for December 31, 2018

Report Form and Instructions:

(1) *Report form cover page*: Updated expiration date.

Instructions

- (1) *HC-B Instructions*, Updated the opening paragraph of the instructions for Schedule HC-B, *Securities* for ASU 2016-01, which changed the accounting for equity securities and eliminated the concept of available-for-sale equity securities and
- (2) *HC-R Part II item 4.a and 5.a*. Made minor clarifications to the description of residential mortgage exposure in the instructions for items 4.a and 5.a of Schedule HC-R, Part II.
