March 2004

Schedule RAL and Glossary

- The instructions and Glossary entries for "Federal funds sold," "Federal funds purchased," "Securities purchased under agreements to resell" and "Securities sold under agreements to repurchase" were revised to be consistent with the domestic bank Call Report (FFIEC 031-041). Security resale and repurchase agreements that mature in one business day or roll over under a continuing contract are no longer reported in "Federal funds sold or purchased", they are reported in "Securities purchased under agreements to resell" or "Securities sold under agreements to repurchase" regardless of maturity.

Schedule L

- The requirement that only branches or agencies with total assets of \$100 million or more are required to complete item 12, "Gross fair values of derivative contracts," has been deleted. The exemption

from reporting the fair values of derivative contracts for branches and agencies with less than \$100 million in assets originated predates FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (FAS 133). FAS 133 requires all derivatives to be measured at fair value and reported on the balance sheet as assets or liabilities. Because branches and agencies with less than \$100 million in assets that have derivatives now have to regularly report the fair value derivative contracts, they have the information necessary to disclose the fair value of their derivatives in Schedule L.

Schedule M

- Removed the exemption for branches and agencies with total assets of \$100 million or more, to report "Gross fair values of derivative contracts," (item 12).

- Added "Gross positive fair value," (Memoranda item 1.a) and 1.b, "Gross negative fair value" (Memoranda item 1.b) to Memoranda item 1, "Notional amount of all credit derivatives on which the reporting branch or agency is the guarantor," and added "Gross positive fair value," (Memoranda item 2.a) and "Gross negative fair value," (Memoranda item 2.b.) to Memoranda item 2, "Notional amount of all credit derivatives on which the reporting branch or agency is the beneficiary." The new items will provide a better measure of credit and market risk for credit derivatives entered into with related depository institutions, particularly for branches and agencies with large positions in such credit derivatives.
