To: Depository Institutions in the Second Federal District that file the weekly Report of Transaction Accounts, Other Deposits and Vault Cash (FR 2900), quarterly FR 2900 or Annual Report of Total Deposits and Reservable Liabilities (FR 2910a)

I am writing to inform you that the Board of Governors of the Federal Reserve System (the Board) under delegated authority by the Office of Management and Budget (OMB), has proposed to extend for three years, with revisions, the following reports:

- Report of Transaction Accounts, Other Deposits and Vault Cash (FR 2900)
- Annual Report of Total Deposits and Reservable Liabilities (FR 2910a)
- Allocation of Low Reserve Tranche and Reservable Liabilities Exemption (FR 2930/FR 2930a)

In addition, the Board has proposed to extend for three years, without revision, the Report of Foreign (Non-U.S.) Currency Deposits (FR 2915).

The proposed changes are detailed in the attached Federal Register notice (dated May 8, 2006) and are summarized below. Comments should be submitted by July 7, 2006.

FR 2900

The following changes were proposed:

- Raise the nonexempt deposit cutoff to $229.1 million, compared with an indexed level of $181.1 million, and set
the reduced reporting limit at its indexed value of $1.206 billion, beginning in September 2006;

- Calculate the nonexempt deposit cutoff and the reduced reporting limit using the sum of total transaction accounts, savings deposits, and small time deposits, rather than total deposits, beginning with the September 2007 panel shift; and

- Index the nonexempt deposit cutoff and the reduced reporting limit annually to 80 percent of the June to June growth in total transaction accounts, savings deposits, and small time deposits, to be used in September 2007.

FR 2910a

The following changes were proposed:

- Replace "Total Deposits" (Item 1) with "Total Transaction Accounts, Savings Deposits, and Small Time Deposits";

- Change the report title to "Annual Report of Deposits and Reservable Liabilities"; and

- Require depository institutions to submit either a positive or negative value in "Net Transaction Accounts" (Item 2.a).

FR 2930 and FR 2930a

- The Board proposes to combine the FR 2930 and FR 2930a into one form to be used by any entity type, effective September 30, 2006.

If you have any questions about these changes, please contact Donnovan Surjoto, Team Leader, at (212) 720-8594 or Brian Osterhus, Staff Director in the Deposit Reports Division, at (212) 720-8023.

Sincerely,

Copies of the OMB 83-Is and supporting statements and approved collection of information instruments are placed into OMB’s public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1985, unless it displays a currently valid OMB control number.

**Request for comment on information collection proposal**

The following information collection, which is being handled under this delegated authority, has received initial Board approval and is hereby published for comment. At the end of the comment period, the proposed information collection, along with an analysis of comments and recommendations received, will be submitted to the Board for final approval under OMB delegated authority. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Federal Reserve’s functions; including whether the information has practical utility;

b. The accuracy of the Federal Reserve’s estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected; and

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Comments must be submitted on or before July 7, 2006.

Proposals to approve under OMB delegated authority the extension for three years, with revision, of the following reports:

   Agency form number: FR 2900
   OMB control number: 7100–0087
   Frequency: Weekly, quarterly
   Reporters: Depository institutions
   Annual reporting hours: 586,166 hours
   Estimated average hours per response: 3.30 hours
   Number of respondents: 2,752 weekly and 4,688 quarterly

   General description of report: This information collection is mandatory (12 U.S.C. 248(a), 461, 603, and 615) and is given confidential treatment (5 U.S.C. 552(b)(4)).

   Abstract: Nonexempt institutions—are defined as those with net transaction accounts greater than the exemption amount or with total deposits equal to or greater than the reduced reporting limit—file the fifteen–item FR 2900 weekly if their total deposits are equal to or greater than the nonexempt deposit cutoff and quarterly if their total deposits are less than the nonexempt deposit cutoff. U.S. branches and agencies of foreign banks and banking Edge and agreement corporations are required to submit FR 2900 data weekly regardless of their deposit size. These mandatory data are used by the Federal Reserve for administering Regulation D (Reserve Requirements of Depository Institutions) and for constructing, analyzing, and monitoring the monetary and reserve aggregates.

   Current Actions: The Federal Reserve proposes to (1) raise the nonexempt deposit cutoff to $229.1 million (compared with an indexed level of $161.1 million) and set the reduced reporting limit at its indexed value of $1.206 billion beginning in September 2006; (2) calculate the nonexempt deposit cutoff and the reduced reporting limit using the sum of total transaction accounts, savings deposits, and small time deposits, rather than total deposits, beginning with the September 2007 panel shift; and (3) index the nonexempt deposit cutoff and the reduced reporting limit annually to 80 percent of the June–to–June growth in total transaction accounts, savings deposits, and small time deposits at all depository institutions. The actual values of the nonexempt deposit cutoff and the reduced reporting limit to be used in September 2007 will be announced under the usual schedule, in October 2006.

2. Report title: Annual Report of Total Deposits and Reserve Liabilities
   Agency form number: FR 2910
   OMB control number: 7100–0617
   Frequency: Annually
   Reporters: Depository institutions
   Annual reporting hours: 5,317 hours
   Estimated average hours per response: 45 to 60 minutes, depending on entity type
   Number of respondents: 5,605

   General description of report: This information collection is mandatory (12 U.S.C. 248(a) and 461) and is given confidential treatment (5 U.S.C. 552(b)(4)).

   Abstract: Currently, the three–item FR 2910 is generally filed by exempt institutions whose net transaction accounts are greater than the exemption amount and whose total deposits (as shown on their December Call Report) are greater than the exemption amount but less than the reduced reporting limit. Respondents submit single–day data as of June 30. These mandatory data are used by the Federal Reserve for administering Regulation D (Reserve Requirements of Depository Institutions) and for constructing, analyzing, and monitoring the monetary and reserve aggregates.

   Current Actions: The Federal Reserve proposes to combine the FR 2930 and FR 2930a into one reporting form (FR 2930) that would be used by any entity type (both foreign–related and domestic institutions). The instructions for the FR 2930 reporting form would be modified to reflect this change. The effective date of this revision would be September 30, 2006.

Proposal to approve under OMB delegated authority the extension for three years, without revision of the following report:

   Agency form number: FR 2915
   OMB control number: 7100–0237
   Frequency: Quarterly
   Reporters: Depository institutions
   Annual reporting hours: 214 hours
   Estimated average hours per response: 30 minutes
   Number of respondents: 107

   General description of report: This information collection is mandatory (12 U.S.C. 248(a)(2), and 347(d)) and is given confidential treatment (5 U.S.C. 552(b)(4)).

   Abstract: The FR 2930 and FR 2930a collect data on the allocation of the low reserve tranche and reservable liabilities—exemption amount for depository institutions having offices (or groups of offices) that file separate FR 2900 deposit reports. The FR 2930 is filed by U.S. branches and agencies of foreign banks and banking Edge and agreement corporations; the FR 2930a is filed by other types of depository institutions.
Abstract: The FR 2915 collects seven-day averages of the amounts outstanding for foreign (non-U.S.) currency-denominated deposits held at U.S. offices of depository institutions, converted to U.S. dollars and included in the institution’s FR 2900 data. Foreign currency deposits are subject to reserve requirements and, therefore, are included in the FR 2900 data submission. All weekly and quarterly FR 2900 respondents offering foreign currency deposits file the six-item FR 2915 quarterly, on the same reporting schedule as quarterly FR 2900 respondents. Data collected on the FR 2915 are mainly used in the construction of the monetary aggregates. These data are included in deposit data submitted on the FR 2900 for reserve requirement purposes, but they are not included in the monetary aggregates. The FR 2915 is the only source of data on such deposits.

Jennifer J. Johnson.
Secretary of the Board.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276–1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Evaluation of the Project Rehabilitation and Restitution Program (OMB No. 0930–0248)—Revision

The Rehabilitation and Restitution initiative of the Substance Abuse and Mental Health Services Administration’s (SAMHSA) Center for Substance Abuse Treatment seeks to reduce recidivism and increase psychosocial functioning and pro-social lifestyle among substance abusing offenders that have pled to or been convicted of a single felony. Hypotheses of the study are that providing intensive, long-term case management services will facilitate a pro-social lifestyle leading to higher rates of sealing or expunging of criminal records and that the prospect of stigma reduction provided by a sealed criminal record will motivate offenders to remain crime and drug free in order to achieve a felony-free criminal record.

The project consists of (1) providing technical assistance to develop and implement an enhanced model for case management services, and (2) evaluating the effectiveness of the case management model in increasing the number of people that have their records sealed or maintain eligibility to have their records sealed. The study is confined to jurisdictions with statutes permitting records to be sealed within the remaining three-year parameters of the study. Two counties in Ohio, one involving an urban setting (Cuyahoga county which includes the city of Cleveland) and the other a rural setting (Clermont county adjacent to Northern Kentucky) were awarded by SAMHSA in 2002 in response to the original SAMHSA Request for Applications (RFA).

Target populations, drawn from Cuyahoga and Clermont County Court of Common Pleas Probation Departments, are first-time felons that are eligible to have their felony records sealed, have a diagnosis of substance dependence or abuse, and will receive case management services, including treatment referral, through each County’s Treatment Accountability for Safer Communities (TASC) agency.

Technical assistance to participating counties is provided to (1) develop a strengths-based case management model designed to increase the proportion of offenders that achieve record expungement or maintain eligibility to have their felony records sealed, and (2) involve the various stake holders, such as case managers, probation officers and administrators, prosecutors, public defenders, judges, and treatment providers in the implementation of the case management model. A formative evaluation provides feedback on the implementation of the program. A systems evaluation examines the services offered to the felons, and changes in attitudes towards sealing records on the part of critical stakeholders, such as prosecutors, judges and service providers, and criminal justice systemic evolution. An outcomes evaluation examines the effect of the case management model on maintaining eligibility to have records sealed, and social, psychological and
