To: Individuals Responsible for Preparing the FR Y-9C and FR Y-9LP Reports

I am writing to you to make individuals responsible for preparing the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C) and the Parent Company Only Financial Statements for Large Bank Holding Companies (FR Y-9LP) aware that these two reports are migrating to the Reporting Central application from the Internet Electronic Submission (IESUB) application. You may begin submitting data for either of these two series in Reporting Central for the September 30, 2015, as-of date. At that time, the IESUB application no longer will be available for these reports.

The Reporting Central data collection system will subject the Holding Company's electronic data submission to validity edits that must be resolved before the data can be accepted. However, the current requirement for supplying explanations for quality edits for the FR Y-9 reports at the time of data submission will no longer be required. Please note that the Federal Reserve staff will contact you to discuss data variances and quality issues.

The Federal Reserve developed Reporting Central to enhance the overall reporting functionality of the Federal Reserve Banks' data collection and processing activities. These enhancements will allow for a more secure, technically advanced, and efficient system that will encompass a single point of entry for electronic submission and file uploads. Financial and nonfinancial institutions will access Reporting Central via the FedLine® Web access solution to submit reports and gain access to electronic reporting applications, report forms, and instructions. These reports are required to be submitted electronically, so please take the necessary steps to gain access to the Reporting Central application as soon as possible.
