${ }^{1}$ Repayment amount for the period includes $\$ 3.7$ billion of proceeds received from asset sales. Due to the cash flow cut off date used to
calculate the cash available for the repayment, the portion of the repayment amount comprised of sale proceeds may not reconcile to the total sale proceeds reported each month. Proceeds received after the cut off date are applied to the loan in the next monthly payment cycle.
Includes all asset sectors that, individually, represent less than 5\% of aggregate outstanding fair value of the portfolio

- Including interest and principal receivable
${ }^{4}$ Including accrued expenses and other payables
${ }^{\circ}$ Change in fair value from the prior quarter reflects a combination of asset repayment of principal, change in the price, realized gains and losses as a result of sales, and the disbursement of cash to repay the Senior Loan
