Survey of Primary Dealers

Markets Group, Federal Reserve Bank of New York January 2015

Policy Expectations Survey

Please respond by Tuesday, January 20, at 12:00 pm to the questions below. Your time and input are greatly appreciated.

This survey is formulated by the Trading Desk at the Federal Reserve Bank of New York to enhance policymakers' understanding of market expectations on a variety of topics related to the economy, monetary policy and financial markets. The questions involve only topics that are widely discussed in the public domain and never presume any particular policy action. FOMC members are not involved in the survey's design. Dealer:

1) a) Provide below your expectations for changes, if any, to the language referencing each of the following topics in the January FOMC statement. Limit your responses to changes you consider most likely. **Current economic conditions and the economic outlook:** **Communication on the Committee's policy of reinvesting principal payments on Treasury and agency securities:** **Communication on the expected path of policy rates and forward guidance on the target federal funds rate:**	
Current economic conditions and the economic outlook: Communication on the Committee's policy of reinvesting principal payments on Treasury and agency securities:	
Communication on the Committee's policy of reinvesting principal payments on Treasury and agency securities:	ted
Other:	
b) How do you expect the January FOMC statement to influence market perceptions of the stance of monetary policy, if at all? (1 = less accommodative, 3 = neutral, 5 = more accommodative)	
Perceived stance of monetary policy:	
2) How would you grade the Federal Reserve System's communication with the markets and with the public since the policy survey on December 8? Please provide a rating between 1 and 5, with 1 indicating ineffectiven	ess and 5 indicating effectiveness.
Rating: Please Explain:	
3) a) Of the possible outcomes below, provide the percent chance* you attach to the timing of the first increase in the federal funds target rate or range. Also, provide your estimate for the most likely meeting for the first increase in the federal funds target rate or range.	normane a
	icitade.
