## SURVEY OF MARKET PARTICIPANTS

This survey is formulated by the Trading Desk at the Federal Reserve Bank of New York to enhance policymakers' understanding of market expectations on a variety of topics related to the economy, monetary policy and financial markets. The questions involve only topics that are widely discussed in the public domain and never presume any particular policy action. FOMC participants are not involved in the survey's design.

Please respond by **Monday**, **June 4th at 5:00 pm** to the questions below. Your time and input are greatly appreciated.

Only fill out this conditional probability distribution if you assigned a non-zero probability to the Committee's next policy action between now and the end of 2018 being an increase.

Increase Occurs at June FOMC meeting	Increase Occurs at July/August FOMC meeting	Increase Occurs at September FOMC meeting or later

\*Responses should add up to 100 percent.

**2e)** Please indicate the percent chance\* that you attach to the target federal funds rate or range falling in each of the following ranges <u>at the end of 2018</u>, conditional on the following possible scenarios for the direction and timing of the Committee's next policy action <u>between now and the end of 2018</u>. Only fill out the conditional probability distributions for which you assigned a non-zero probability to the conditioning event occurring. If you expect a target range, please use the midpoint of that range in providing your response.

Year-end 2019:								
Year-end 2020:								

\*Responses across each row should add up to 100 percent.

2f-iv) What is your estimate of the target federal funds rate or range at the effective lower bound?

Level of the target federal funds rate or range at the effective lower bound (in percent):

2g) For parts a-f, please explain the factors behind any change to your expectations, where applicable, since the last policy survey.

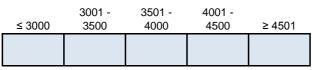

**3a)** Provide your estimate of the most likely outcome for the 10-year Treasury yield at the end of each period below. In addition, provide your estimate of the longer-run level of the 10-year Treasury yield.

**4a)** Please indicate the percent chance\* that you attach to the following possible outcomes for the par value of the SOMA portfolio <u>at the end of 2020</u>, <u>conditional on **not** moving to the ZLB at any point between now and the end of 2020</u>. For reference, the level of the SOMA portfolio on May 23rd, 2018 was \$4143 billion, including inflation compensation and settled and unsettled agency MBS, according to the most recent H.4.1 release. Levels referenced below are in \$ billions.

\*Responses should add up to 100 percent.

**4b)** Please indicate the percent chance\* that you attach to the following possible outcomes for the par value of the SOMA portfolio <u>at the end of 2020</u>, <u>conditional on moving to the ZLB at any point between now and the end of 2020</u>. Only fill out this conditional probability distribution if you assigned a non-zero probability to moving to the ZLB at some point between now and the end of 2020 in question 2. Levels referenced below are in \$ billions.

\*Responses should add up to 100 percent.

**5a)** During 2018 to date, the average size of the Federal Reserve System's balance sheet was \$4398 billion, and was composed roughly as follows:

\*Individual categories rounded to the nearest \$ billion.

\*\*Includes net unamortized premiums and discounts on securities held outright, repos, and other assets.

\*\*\*Includes balances held by designated financial market utilities (DFMUs), government sponsored entities (GSEs) and international and multilateral organizations.

The figures above refer to averages of Wednesday levels from 2018 H.4.1 releases through 5/24.

Please indicate your expectations for the composition of the Federal Reserve System's balance sheet, on average, in 2025, <u>conditional on **not** moving to the ZLB at any point between now and the end of 2025</u>. Please provide your responses in levels (\$ billions); the total levels and shares will automatically populate so as to aid responding. Please ensure total assets are equal to total liabilities plus capital.
