

SURVEY OF	PRIMARY	DEALERS
DECEMBER	2023	

Current economic conditions:

This survey is formulated by the Trading Desk at the Federal Reserve Bank of New York to enhance policymakers' understanding of market expectations on a variety of topics related to the economy, monetary policy and financial markets. The questions involve only topics that are widely discussed in the public domain and never presume any particular policy action. FOMC participants are not involved in the survey's design.

Please respond by **Monday**, **December 4th 2:00pm Eastern Time** to the questions below. Your time and input are greatly appreciated.

1a) Provide below your expectations for <u>changes</u>, if any, to the language referencing each of the following topics in the December FOMC statement. <u>Please write N/A if you do not expect any changes.</u>

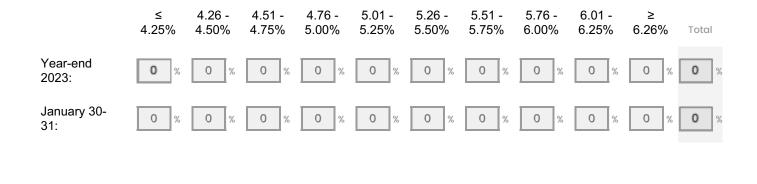

Economic outlook and communication on the expected path of the target federal funds rate:	
Communication on tools other than the target federal funds rate:	
Other:	

1b) What are your expectations for the most likely levels of the medians of FOMC participants' target federal funds rate projections in the SEP? Please provide your responses out to three decimal places (e.g. for one percent enter 1.000, not 0.01).

	Year-end 202 Sep-23: 5.6259		end 2024 3: 5.125%	Year-end 2025 Sep-23: 3.875%	Year-end Sep-23: 2		Longer Run ep-23: 2.500%
December SEP median (percent):							
l c) What are your expectations	s for the Chair's p	oress confer	rence?				
2a) Provide your estimate of the mmediately following the FOM periods at which you expect a to 1.25 percent enter 1.125, not 0	C meetings and arget range, plea	at the end o	of each of the	e following quarte	ers and year	s below. For	the time

A summary of assets and liabilities responses are below. Please review and return to the question to make any edits before proceeding.

Other Assets is calculated as the difference between Total Assets* and the sum of U.S. Treasuries and Agency MBS. For assets in Q4 2023 through Q1 2024, monthly averages are averaged to reflect quarterly horizons. Other Liabilities and Capital is calculated as the difference between Total Liabilities and Capital and the sum of Reserves, Currency in Circulation, Overnight Reverse Repurchase Facility, and Treasury General Account.

Average level over each period (\$ billions)

Assets:

	2023 Q3	2023 Q4	2024 Q1	2024 Q2	2024 Q3	2024 Q4	2025 Q4
