

SURVEY OF PRIMARY DEALERS DECEMBER 2024

This survey is formulated by the Trading Desk at the Federal Reserve Bank of New York to enhance policymakers' understanding of market expectations on a variety of topics related to the economy, monetary policy and financial markets. The questions involve only topics that are widely discussed in the public domain and never presume any particular policy action. FOMC participants are not involved in the survey's design.

Please respond by **Monday, December 9th 2:00pm Eastern Time** to the questions below. Your time and input are greatly appreciated

appreciated.					
1a) Provide below your expectation	ons for changes, if a	ny, to the language re	eferencing each of th	ne following topics in	the December
FOMC statement. Please write N/	· · · · · · · · · · · · · · · · · · ·		· ·		
Current economic conditions:					
Economic outlook and

*Responses across each row should add up to 100 percent.

**Bins were chosen with consideration to responses to questions 3a in the November 2024 SPD and SMP.

2d) Please indicate the percent chance* that you attach to the <u>lowest</u> level of the target range for the federal funds rate before the target range is next <u>increased</u> falling in each of the following ranges.

^{*}Responses should add up to 100 percent.

3) Please provide your estimate of the most likely change in your expectation of the longer run target federal funds rate (as provided in part 2b) in the case of an <u>unexpected and persistent change</u> in each of the following factors. Consider each factor <u>separately</u>, holding all other factors constant. Please ensure your signs are correct and please provide your responses out to at least one decimal place (e.g. for one percent enter 1.0, not 0.01).

Change in your expectation of the longer run fed funds rate (percentage points):

Increase in trend productivity growth in the U.S.* by 0.5 percentage	
points relative to your baseline expectation: 10y average productivity growth as of Q3 2024: 1.6%	
Increase in the long run path of marketable U.S. Treasury debt held by private investors as a	
percent of GDP** by 10 percentage points relative to your baseline expectation: Q2 2024: 77%	
Increase in the population growth rate in the U.S.*** by 0.2 percentage points	
relative to your baseline expectation: 10y average annual population	

Please provide any additional information on your estimates above, including the <u>distribution of outcomes</u> around your estimates and the <u>methods</u> used to develop your estimates. Please also discuss <u>any additional factors</u> that you expect could affect the longer run target federal funds rate.

^{*}Nonfarm business sector labor productivity, percent change from quarter one year ago, seasonally adjusted, by the Bureau of Labor Statistics.

^{**}Total marketable public debt held by private investors, by the U.S. Department of the Treasury Fiscal Service Table OFS-1. Gross domestic product, seasonally adjusted annual level, by the U.S. Bureau of Economic Analysis.

^{***}U.S. population growth, annual, by the Congressional Budget Office.

4a) Please provide your modal expectation for the average level of specified assets over each of the periods below. Average level amounts referenced below are in \$ billions.

Average level over each period (\$ billions)

Note: U.S. Treasuries and Agency MBS do not need to sum to Total Assets*

	November 2024 (Actual**)	December 2024	January 2025	February 2025	March 2025
U.S. Treasuries:	4332				
Agency MBS:	2263				
Total Assets*:	7005				

Average level over each period (\$ billions)

Note: U.S. Treasuries and Agency MBS do not need to sum to Total Assets*

	2025 Q2	2025 Q3	2025 Q4	2026 Q4
U.S. Treasuries:				
Agency MBS:				
Total Assets*:				

^{*}Refers to total factors supplying reserve funds in H.4.1.

4b) Please provide your modal expectation for the average level of specified liabilities over each of the periods below. Average level amounts referenced below are in \$ billions.

The displayed level for total liabilities and capital is computed from total assets in part 4a. For 2024 Q4 through 2025 Q1, monthly averages from part 4a are averaged to reflect quarterly horizons.

Average level over each period (\$ billions)

	2024 Q3 (Actual*)	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
Total Liabilities and Capital	7209						

Note: line items below do not need to sum to Total Liabilities and Capital

	2024 Q3 (Actual*)	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
Reserves:	3283						
Currency in Circulation:	2351						
Overnight Reverse Repurchase Facility:	371						
Treasury General Account:	766						

^{**}Average of H.4.1 weekly averages of daily figures.

A summary of assets and liabilities responses is below. Please review and return to the question to make any edits before proceeding.

Other Assets is calculated as the difference between Total Assets* and the sum of U.S. Treasuries and Agency MBS. For assets in 2024 Q4 through 2025 Q1, monthly averages are averaged to reflect quarterly horizons. Other Liabilities and Capital is calculated as the difference between Total Liabilities and Capital and the sum of Reserves, Currency in Circulation, Overnight Reverse Repurchase Facility, and Treasury General Account.

Average level over each period (\$ billions)

Assets:

	2024 Q3	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
U.S. Treasuries	4409						
Agency MBS	2314						
Other Assets	486						
Total Assets*	7209						

Average level over each period (\$ billions)

Liabilities:

	2024 Q3	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q4
Reserves	3283						
Currency in Circulation	2351						
Overnight Reverse Repurchase Facility	371						
Treasury General Account	766						
Other Liabilities and Capital	438						
Total Liabilities and Capital	7209						

*Refers to total factors supplying reserve funds in H.4.1.

4c) Please indicate the period in which you expect the SOMA portfolio to <u>cease to decline</u>, and the size of the SOMA portfolio when it ceases to decline. Please also indicate the size of specified liabilities, reserves and take-up at the overnight reverse repurchase agreement facility, when the SOMA portfolio <u>ceases to decline</u>.

Period in which SOMA portfolio ceases to decline*:

Size of SOMA portfolio when it ceases to decline (\$ billions)**:

Current value: \$6,574bn***

Current value: \$170bn***
