Purpose and General Instructions

Henry Castillo
Purpose of the Call Report

The FFIEC 002 is used to:

- Provide information used in the supervision of U.S. branches and agencies of foreign banking entities
- Collect information to conduct economic analyses
Who must report?

- All U.S. branches and agencies of foreign banks are required to submit an FFIEC 002 to the Federal Reserve Bank (FRB) in whose district they are located
General Instructions

With prior permission from the FRB, reports for two or more branches or agencies may be combined provided:

- The offices are located in the same city, state and Federal Reserve district and
- The report does not combine insured and uninsured branches
Definitional Difference
FFIEC 002 vs FR 2900

**FFIEC 002**
- U.S. branches or agencies are not required to consolidate

**FR 2900**
- U.S. branches or agencies of a foreign bank located in the same state and within the same Federal Reserve District are required to submit a consolidated report.
General Instructions

Where and when to submit the report?

- The report is as-of the last calendar day of each quarter and is due to the Federal Reserve Bank no later than 30 days after the as-of date.
- If the due date falls on a weekend or a holiday, it is moved to the next business day.
Submission of the FFIEC 002

- Electronic submission of the FFIEC 002
  - Benefits
    - Eliminates need for two hardcopies
Submission of the FFIEC 002

- More time to prepare report. Allows filing up to 5:00 pm on the due date

- Validity errors are identified before submission
Signatures

- The original report must be signed by an authorized officer and the senior executive official of the reporting institution.
Regulatory Reports Monitoring Program

Required by FDIC Improvement Act of 1991

Purpose

- To encourage banking organizations to file timely, complete, and accurate reports
- To ensure adequate follow-up is conducted so late and false reporters file timely and accurately in the future
Regulatory Reports Monitoring Program

 AVR Timeliness

 - Any reports received after 5:00 pm on the due date will be considered late
   - Unless postmarked three calendar days prior to the due date, or
   - Submitted to an overnight service the day before the due date
Regulatory Reports Monitoring Program

▲ Timeliness

- Submission of initial data via facsimile even if prior to the deadline, does not constitute timely filing
False reporting

- Computer “validity edit checks” are used to monitor basic reporting requirements
- Copies of edit checks are mailed annually or when the report changes
General Instructions

Accounting basis

- The FFIEC 002 report should conform to U.S. Generally Accepted Accounting Principles (U.S. GAAP)

- When reporting treatment of a transaction is not addressed in the instructions or U.S. GAAP, discuss the transaction with the Federal Reserve Bank staff
Consistent with the U.S. GAAP all schedules of this report should be prepared on an accrual basis.
Completion of the report form

- Amounts denominated in foreign currencies must be reported in U.S. dollars
- The rates used for this conversion should be those in effect on the as-of date
An IBF is a set of books a depository institution maintains for a “shell” institution, established in the U.S., but treated like a branch located overseas.

IBFs were first established in 1981 to allow depository institutions to compete more effectively with non-U.S. banking centers for overseas deposits and loans.
IBFs are treated as non-U.S. offices and are exempt from certain U.S. laws, including:

- Reserve requirements
- FDIC insurance assessments
- State and local income taxes (in some states)
International Banking Facilities (IBFs)

IBF restrictions

- IBF can only extend credit or accept deposits if the funds will be used to finance operations outside the U.S. to the following customers:
  - Foreign residents (including banks)
  - Other IBFs
  - The establishing entity of the IBF
International Banking Facilities (IBFs)

The maturity of IBF deposits must be:

- At least **overnight** for foreign banks, other IBFs, and the establishing entity
  - At least **two business** days for nonbank foreign residents
International Banking Facilities (IBFs)

- Deposits and withdrawals of nonbank customers must be in the amount of at least $100,000
- IBFs are prohibited from issuing negotiable instruments
Related Institutions

- Related institutions include:
  - The head office of the reporting institution and its other branches and agencies
  - The holding company of the foreign parent bank
Related Institutions

- Depository institutions that are majority owned by the foreign parent bank or the holding company

- Any other majority-owned banking subsidiary
Financial Accounting Standard Board Interpretation No. 39 (FIN 39)
A right of setoff exists when the following conditions are met:

- There are two parties to the transaction, and each owes the other determinable amounts.
Offsetting of Amounts Related to Certain Contracts

- The reporting party has the **right to set off** the amount owed with the amount owed by the other party.

- The reporting party **intends to set off**

- The right of setoff is **enforceable by law**
The FFIEC 002 and the FFIEC 002S report forms and instructions are available at:

http://www.ffiec.gov/ffiec_report_forms.htm
Summary

- Reports filed should be timely and accurate
- Electronic submission via the Internet
- The Call Report should be prepared based on the U.S. GAAP
- IBFs should only engage in international activities
- Netting of transactions should comply with FIN 39
Schedule RAL
Assets and Liabilities

- Combine U.S. branches and agencies of other foreign banks and Other commercial banks in the U.S., Lines 4.b.(1) and 4.b.(2)
June Report Changes

Schedule RAL - Assets and Liabilities - Memoranda

«“Assets under the reporting branch or agency’s management in proprietary mutual funds and annuities”, Line M 9.
   – Report only asset levels not sales volume

«“Amount of assets netted against liabilities to non-related parties…”, Line M 12.
   – Deleted
June Report Changes

Schedule RAL - Assets and Liabilities

Statutory or Regulatory Requirement

- “Average liabilities for the preceding calendar quarter”, Line 3.a.
  - Reporting period changed from current quarter-end to the preceding quarter-end
June Report Changes

Schedule RAL - Assets and Liabilities

Other

- “Equity securities with no determinable fair values (not held for trading)
  - Report in “Other assets”, Line 1.h.
  - Exclude from Memoranda Lines 3. and 4.
Securities held-to-maturity

- Only debt securities for which an institution has the intent and the ability to hold to maturity may be included in the held-to-maturity portfolio
Securities

- These securities should be reported at the amortized cost (purchase price adjusted for amortization of premium or accretion of discount if the security was purchased at other than par or face value)

☞ Schedule RAL, Lines 1.b. and 1.c.
Securities available-for-sale

- Debt and equity securities for which the institution does not have the intent AND ability to hold to maturity, yet does not intend to trade actively as part of its trading account
Securities

- Securities available-for-sale should be reported at fair value on Schedule RAL, Lines 1.b. and 1.c.

- Gains or losses in the value of these securities should be reported on Schedule M, Part I, Line 2.a.
Securities

Trading securities

- Debt and equity securities that an institution buys and holds for the purpose of selling in the short term

- Trading securities should be reported at fair value on Schedule RAL, Line 1.f.
Securities

- Appreciation (gain) or depreciation (loss) in the value of these securities should be reported in earnings (income or loss) on Schedule M, Part I, Line 2.a.
Circumstances of sale or transfer considered consistent with FAS Statement No. 115 (FAS 115) held-to-maturity classification

- Evidence of significant deterioration in the issuer's creditworthiness
Securities

- A change in tax law that eliminates or reduces the tax exempt status of the interest on the debt security

- A major business combination or disposition
Securities

Circumstances of sale or transfer considered
“tainting” under FAS 115 held-to-maturity classification

- Changes in foreign currency risk
- Changes in market interest rates
Securities

- Changes in funding sources
- Changes in the security's prepayment risk, the marginal tax rate, or the institution's liquidity needs
A sale or transfer of a held-to-maturity security for reasons considered inconsistent call into question the positive intent and ability to hold other securities in the held-to-maturity portfolio to maturity.
As result of such a transfer or sale, the entire portfolio is considered *tainted* and all held-to-maturity securities must be reclassified as available-for-sale and reported at fair value.

- For two years after the reclassification, purchases of debt securities should not be classified as held-to-maturity.
Securities

- The income and expense from unrealized gains and losses should be reported as part of unremitted profit or loss on Schedule M, Part I, Line 2.a.

- Such transfers should be done in consultation with your outside accountants

    – Other consumer loans

Exclude

Mortgage-backed securities
Securities

Exclude from securities

- When-issued securities
- Securities borrowed

- Report these on Schedule L, Line 7, if they meet the specific reporting criteria
Trade Date vs Settlement Date Accounting

- Securities should be reported as of the trade date (trade date accounting)

- Trade date accounting requires that on the trade date (as opposed to the settlement date)
  - The security purchased be reported in the appropriate security category on Schedule RAL
The corresponding obligation to pay for the security on settlement date should be reflected as a liability on Schedule RAL, Line 4.f.

On settlement date, the disbursement of cash will eliminate the liability to pay...
Trade Date vs Settlement Date Accounting

- **Trade date accounting**
  - **Security sold**
    - Credit the appropriate security category on Schedule RAL
    - Report the claim for payment from the sale on Schedule RAL, Line 1.h.
On settlement date, the receipt of the cash will eliminate the receivable reported in “Other assets”

Any gains/losses shall be recognized on the trade date
Trade Date vs Settlement Date Accounting

 Settlement date accounting

- The sale (purchase) of a security is not reported until the settlement date

- Settlement date accounting may be used only if the difference is not material

Loans

Objectives

• Definition of a loan
• Depository vs Financial institutions
• Overdrafts and unearned income on loans
• Specific vs General reserves
• Past due, Nonaccrual and Restructured loans
Loans

Divided in Two Parts

- Part I includes all loans and leases
- Part II includes loans to small businesses and small farms
  - Required by the Federal Deposit Insurance Corporation Improvement Act of 1991
Loans

- Completed only by U.S. branches and agencies whose deposits are insured by the FDIC

- Completed only for the June 30 report date
Loans

- A loan is an extension of credit resulting from direct negotiations between a lender and a borrower.

- The reporting institution may originate or it may purchase a loan or a portion of a loan originated by another lender.
Loans should be reported at book value (unless FAS 133 applies) and net of unearned income.

Loans include:

- The sale of immediately available funds with maturity $>\text{one business day}$ (i.e., term fed funds sold)
- Customers’ overdrafts
Loans

- Discounted bankers’ acceptances

- Loans held for sale should be reported at the lower of cost or fair value

- Loans that are past due or in non-accrual status

- Resale agreements involving assets other than securities with a maturity > one business day
Loans

Loans exclude

- Sales of immediately available funds maturing in one business day (i.e., overnight federal funds sold)
  - Schedule RAL, Line 1.d.

- Deposits held at depository institution
  - Schedule A
Loans

- Accrued interest receivable on loans  
  - Schedule RAL, Line 1.h.

- Loans to related depository institutions  
  - Schedule M, according to counterparty

- Other Real Estate Owned (OREO)  
  - Schedule RAL, Line 1.h.
Depository vs Financial Institutions

- Depository institutions are institutions that can accept deposits
  - Edge and Agreement corporations
  - Commercial banks
  - Credit unions
  - Thrifts

Note: “Loans to depository institutions” and “Acceptances of other banks” are combined
Financial institutions are financial intermediaries whose primary business is to extend credit

- Investment banks
- Real estate investment trusts (REITs)
- Finance and mortgage finance companies
- Bank holding companies
- Insurance companies
Loans secured by real estate, Line 1.

- All loans, regardless of purpose or counterparty, that are secured by real estate

**Exception**

Loans secured by real estate issued to state and political subdivisions (Line 8.)
Home equity loan is a loan to a homeowner for purposes other than the purchase of the home Collateralized by the equity of the home of the debtor
Line Item Instructions

- Loans for purchasing or carrying securities, Line 7.
- Includes all loans to brokers and dealers in securities (other than those secured by real estate) regardless of purpose
- Excludes loans to depository institutions for the purpose of purchasing or carrying securities
Line Item Instructions

- All other loans, Line 8.
  - Loans to nonprofit organizations
  - Loans to individuals
  - Loans to state and political subdivisions, including loans secured by real estate
Line Item Instructions

Overdrafts

- Planned (or prearranged) overdrafts
  - A contractual agreement has been made in advance to allow such credit extensions
  - Reported according to counterparty
Unplanned overdrafts, Line 8.

- A depository institution honors a check or draft drawn against a deposit account when insufficient funds are on deposit, and

- There is no advance contractual agreement to honor the check or draft
### Exception

- Unplanned overdrafts of **depository institutions**

- Unplanned overdrafts of **foreign governments and official institutions**
Line Item Instructions

- Unearned income, Line 10.
  - Income received but not yet earned, such as prepaid interest or fees
Line Item Instructions

– The preferred treatment is to report the specific loan categories net of unearned income.

  ↴ Unearned income that cannot be applied to a specific loan should be reported on Line 10.

– Do not report unearned income in Line 10 as a negative number.
Allowance for Loan Losses

Specific “Reserves”

- Specific loan loss reserves are only maintained for *identified losses*
  
  - Loans should be reported net of identified losses on Schedule C (and throughout the report) *only when branch management has identified a specific loss amount*
General “Reserves”

☐ General loan loss reserves are reserves that are maintained against the loan portfolio in order to absorb any anticipated loan losses
Allowance for Loan Losses

General “Reserves”

– Loans should be reported at book value on Schedule C (and throughout the report) and **not reduced** by any general loan loss reserves

– General “reserves” should be reported as
  - Due to head office on Schedule M, Part I, Column B, Line 2.a., and
  - Schedule M, Part IV, Line 1.
Allowance for Loan Losses

Provision

- The provision for both specific and general reserves is an expense and should be reported on Schedule M, Part I, Line 2.a. as part of the profit/loss calculation.
Accounting Entries

“General Reserves”
Dr: Provision for Loan Loss (M, Part I, Line 2.a., Col A)

Past Due, Nonaccrual,
and Restructured Loans

When is lunch?

Sooon!

Patricia Maone
Past Due, Nonaccrual, and Restructured Loans

- **Past Due Loans**
  - Loans and lease financing receivables are to be reported as past due when either interest or principal is unpaid for 30 days or more.
Past Due, Nonaccrual, and Restructured Loans

Nonaccrual Loans

- Loans that are past due 90 days or more and are not well-secured, or not in the process of collection
- A performing loan can be considered nonaccrual if the financial condition of the borrower has deteriorated, or
- Payment in full of interest or principal is not expected
Restructured Loans

- Troubled debt restored to accrual status because either its principal or interest was reduced to enable the customer to repay the loan

- Extending the maturity of a loan does not by itself constitute a restructured loan
All loans reflected on Schedule N must also be reported on Schedule C and on Schedule RAL.
Report loans at book value, net of unearned income and net of specific reserves.

Depository vs financial institution.

Overdrafts: planned and unplanned.

Specific and general reserves.

June Report Changes

The following were deleted from Schedule L

- “Participation in acceptances acquired by the reporting branch or agency”, Line 6.

- “Total gross notional amount of derivative contracts held for purposes other than trading”, Line 11.
  - Contracts not marked to market, Line 11.b.
June Report Changes

The following were deleted from Schedule L

- “Contracts held for purposes other than trading that are not marked to market”, Line 12.
  - Gross positive fair value, Line 12.c.(1)
  - Gross negative fair value, Line 12.c.(2)
Differences Between Two Schedules

- Schedule L includes off-balance sheet transactions with nonrelated institutions and related nondepository institutions.

- Schedule M, Part V, includes off-balance sheet transactions with related depository institutions.
Commitments to make or purchase loans, Line 1.

- Includes all legally binding commitments to make or purchase loans

- Only the unused (i.e., amount that has not been drawn against) portions of loan commitments are to be reported
Spot foreign exchange contracts, Line 2.

- A spot contract is an agreement for the immediate delivery (i.e., within two business days) of a foreign currency at the prevailing cash market rate.
Line Item Instructions

- Spot contracts are considered outstanding until canceled by acquisition or delivery of underlying currencies

- For contracts where foreign currencies are bought and sold against U.S. dollars, report the foreign currency (non-U.S.) side
For cross-currency contracts, which involve the purchase and sale of two non-U.S. currencies, report the purchase side of the transaction.

Exclude contracts for the delayed delivery of foreign exchange. These forward contracts are reported in Line 9.b.
Line Item Instructions

- **Standby letters of credit, Line 3.**
  - Includes all outstanding letters of credit and all legally binding commitments to issue letters of credit
  - Includes the amount of letters of credit conveyed to others through participations
Line Item Instructions

- Only the unused (i.e., amount that has not been drawn against) portions of letters of credit are to be reported
Line Item Instructions

- Commercial and similar letters of credit, Line 4.
  - Includes all outstanding issued and confirmed letters of credit, and all legally binding commitments to issue letters of credit.
  - Only the unused (i.e., amount that has not been drawn against) portions of letters of credit are to be reported.
There are three basic types of letters of credit (excluding standby letters of credit)

- Commercial letters of credit
- Traveler's letters of credit
Line Item Instructions

- Letters of credit sold for cash

  Letters of credit sold for cash must be excluded from Schedule L, and the cash received is reported as a deposit on Schedule E according to counterparty.
Differences between commercial letters of credit and standby letters of credit

- Standby letter of credit
  - Bank's performance is contingent upon the failure of the customer to perform under the terms of the contract
Line Item Instructions

- Commercial letter of credit
  - Substitutes the bank's credit for the credit of another party
  - The party is authorized to write drafts up to the amount specified in the letter of credit
Line Item Instructions

- Participations in acceptances, Line 5.
  - Conveyed to others

Note: Participations in acceptances acquired by the reporting branch or agency, Line 6. was deleted.
Contingent liabilities, Line 7.

- Commitments to accept and place deposits
- Purchases and sales of risk participation in loans
- Securities borrowed
Line Item Instructions

- Commitments to purchase when-issued securities, if not reported as forward contracts
- Other contingencies that cannot properly be reported in the preceding lines
Contingent assets, Line 8.

- Securities lent
- Commitments to sell when-issued securities, if not reported as forward contracts
Gross amount (notional amount) of off-balance sheet derivatives, Line 9.

- Report the notional amount (par value) of the contract according to type of contract
Line Item Instructions

- The sum of items 9.a. through 9.e. must equal the sum of Items 10. and 11.
Interest rate contracts, Column A

- Contracts related to an interest rate risk
Foreign exchange contracts, Column B

- Involve the exchange of one or more foreign currencies and other contracts whose predominant risk is foreign exchange risk
- Include cross currency interest rate contracts, currency futures, and currency option contracts
Equity contracts, Column C

- Contracts that have a rate of return or portion of their return linked to price of or to an index of equity prices
Commodity and other contracts, Column D

- Contracts that have a rate of return linked to price of or to an index of precious metals, petroleum, lumber, agricultural products, etc.
Futures and forward contracts, Lines 9.a. and b.

- Commitments for the purchase or delivery of securities or other money market instruments
  - Buyer agrees to purchase (long position)
  - Seller agrees to make delivery (short position)
  - At a specified future date
  - At a stated price or yield
Futures contracts are traded on an organized exchanges and their terms are standardized.

Forward contracts are traded over the counter and their terms are not standardized.
Futures and forward contracts should be reported

- Gross at par value until they have been canceled by delivery or acquisitions of the underlying instrument or,
- For futures contracts, by “offset”
Offset

- Offset is the purchase and sale of an equal number of contracts:
  - On the same underlying instrument
  - For the same delivery month, and
  - Traded through the same exchange
Forward rate agreements (FRAs), Line 9.b.

- A FRA is a contract in which two counterparties agree on the interest rate to be paid on a notional amount of specified maturity at a specific future time.
- Futures and forward contracts involving foreign exchange should be reported in Column B.
Option contracts, Lines 9.c. and d.

- Options are contracts
  - Where one party acquires the right to sell or purchase some financial instrument
  - At a stated price
  - On or before a specified future date
Unilateral agreement in which the option writer is obligated to perform under the contract if the holder exercises the option.

The two main types of options are:

- Puts (sell) and Calls (buy)
Report the par value of the underlying financial instrument

- Caps, floors, and collars are to be reported as options, Line 9.d.

- A cap is an interest rate contract for which the buyer pays a premium to obtain protection against a rise of a specified interest rate above a certain level.
Line Item Instructions

– A floor is an interest rate contract for which the buyer pays a premium to obtain protection against a drop of a specified interest rate below a certain level

– A collar is an interest rate contract for the simultaneous purchase of a cap and the sale of a floor with the aim of maintaining an interest rate within a defined range
Line Item Instructions

- Premiums received and paid on options are reported **gross** on Schedule RAL
  - Trading assets and/or liabilities held for trading
  - Other assets and/or liabilities if held for purposes other than trading
-interest rate swaps, Line 9.e.

- Contracts in which two parties agree to exchange the interest payment streams on a specified principal amount of assets or liabilities for a period of time.
Line Item Instructions

- Report the notional value. The notional value is the underlying principal amount upon which the exchange of interest is based.

- When the reporting branch or agency is acting as an intermediary between two unrelated parties, both sides of the transaction are to be reported on Schedules L and M.
Line Item Instructions

- When the reporting institution is acting as an intermediary between a related depository institution and an unrelated party (or related nondepository institution)
  - The side of the transaction with the related depository institution is reported in Line 9., Schedule M, Part V
  - The side with the unrelated party is reported in Line 9., Schedule L
Interest receivable and payable on swaps held for trading purposes should be reported net on Schedule RAL, Lines 1.f. and 4.e.

Interest receivable and payable on swaps not held for trading purposes should be reported gross on Schedule RAL, Lines 1.h. and 4.f.
Gross fair values of derivative contracts, Line 12.

- The definition of “fair value” for the FFIEC 002 purposes is based on FASB Statement No, 107, “Disclosure About Fair Value of Financial Instruments.

- FAS 107 defines fair value as “the amount at which the instrument could be exchanged in a current transaction between willing parties, other than a forced liquidation or sale.” Report the fair value as
Line Item Instructions

- If a quoted market price is available for a contract, use the closing market price as quoted by the exchange.

- If a quoted market price is not available, report the bank’s best estimate of fair value based on the quoted market price of a similar contract.

- When external prices are not available, valuation techniques such as discounted cash flows may be used to establish market values.
The fair value of a derivative contract with an immaterial cost basis could be equal to the unrealized gain (positive fair value) or the unrealized loss (negative fair value).
Derivatives Contracts Fair Value

Gross positive or negative fair value

- Future contracts
  - The difference between the current market price and the price when the contract was entered into
Forward contracts

- Depends on the change in the rate (i.e., interest rate, foreign exchange rate, commodity or equity price) for that settlement date over time
Derivatives Contracts Fair Value

- **Swaps**
  - The change in the net present value of the fixed future cash flows
Options

- For an exchange traded option, the change in the price quoted on the exchange

- For an over the counter option, the change in the price as determined by an option pricing model (e.g., Black-Scholes)
Purchased **T-Bill Futures Contract $1,000,000**

A gross negative fair value results when the price of the original contract is greater than the current price.

Derivatives Contracts Fair

- Notional amount of credit derivatives

  - Credit derivatives are off-balance sheet arrangements that allow one party (the “beneficiary”) to transfer the credit risk of a “reference asset” to another party (“the guarantor”)
On balance sheet effects of off-balance contracts held for trading purposes are reported gross on Schedule RAL (unless FIN 39 applies)
- Revaluation gains and losses from off-balance sheet contracts held for trading purposes are reported gross on Schedule RAL (unless FIN 39 applies)
FAS 133 requires derivatives to be designated as speculative or hedging:

- No change in reporting for trading accounts
- The fair value of trading derivative is reported in “Trading assets” or “Trading liabilities”
- The mark-to-market gains will be reported in earnings
Hedging

Hedges

- The fair value of all non-trading derivatives will be reported in “Other assets” or “Other liabilities”

- For depository institutions, the two predominate types of hedges are:

  - Fair value
  - Cash flow
Hedging

Fair Value Hedges

- The hedged items are reported at fair value for the portion of the risk being hedged
- The mark-to-market gains are reported in earnings with the hedging contract
- To the extent the hedging relationship is effective earnings will be unaffected
Cash Flow Hedges

- Cash flow hedges apply to hedging the risk of changes in cash flows for variable rate assets and liabilities
Hedging

- The difference between a Cash Flow and Fair Value hedge
  - The hedged item is not reported at fair value
Hedging

- Reporting on the FFIEC 002
  - The mark-to-market gains and losses from fair value and cash flow hedges should be reported in the institution’s “Net unremitted profit” on Schedule M, Part I, Line 2.a.
Schedule A
Cash and Balances Due From Depository Institutions

Rich Molloy
June Report Changes

“Noninterest-bearing balances due from commercial banks in the U.S.”, M Line 1 was deleted
Cash Items in Process of Collection
