

The New York Fed's Regional Household Debt and Credit Snapshots provide an overview of trends in borrowing and indebtedness at the state and local level. This snapshot includes data about mortgages, student loans, credit cards, auto loans, home equity lines of credit (HELOC) and delinquencies in Brooklyn.

Who's included?

Individuals with a credit file and a social security number*.

What information is reported?

Consumer debt and delinquency information. Borrowing that is not reported to a credit bureau (such as loans from family or friends or non-traditional credit providers like payday lenders) is not captured.

What time period is covered?

Data are as of Q4 2018. There is additional time trend information for select indicators.

Data source: New York Fed Consumer Credit Panel, a representative sample of detailed Equifax credit reports.

Measuring debt: Borrowers are individuals with a positive balance, by loan type. We distinguish between the following types of loans: mortgage accounts, revolving home equity lines of credit (HELOC), auto loans, credit cards, and student loans.

Measuring delinquency: A borrower is considered seriously delinquent if they have at least some debt that is 90 or more days late, by loan type. Overall Consumer Distress includes consumer finance, retail, and other loans, though we do not break these out separately.
