INTRODUCTION TO ANNEX A TO THE 1998 FX AND CURRENCY OPTION DEFINITIONS

Annex A to the 1998 FX and Currency Option Definitions ("Annex A") is intended for use in conjunction with the 1998 FX and Currency Option Definitions (the "Definitions") in confirmations of individual transactions governed by (i) the 1992 ISDA Master Agreements published by the International Swaps and Derivatives Association, Inc. ("ISDA"), (ii) the International Foreign Exchange and Options Master Agreement (FEOMA), the International Foreign Exchange Master Agreement (IFEMA) and the International Currency Options Market Master Agreement (ICOM), each published by The Foreign Exchange Committee (the "FX Committee") in association with the British Bankers' Association, the Canadian Foreign Exchange Committee and the Tokyo Foreign Exchange Market Practices Committee and (iii) other similar agreements.

Annex A, which supplements and forms a part of the Definitions, contains currency and currency spot rate definitions and certain other related definitions and provisions. It is anticipated that currency and currency spot rate definitions will be added or changed from time to time as transactions involving rates and currencies not included in the Definitions become more prevalent and to reflect market practice. Accordingly, this version of Annex A, unlike the version originally published, will be made available on the Internet to accommodate such additions and changes. These additions and changes will be set forth in periodic updates to Annex A that will be effective when published on the websites of ISDA, the Emerging Markets Traders Association or the FX Committee (collectively, the "Sponsoring Organizations"). In addition, the Sponsoring Organizations intend to publish from time to time a complete version of Annex A that incorporates the additions and changes to Annex A since the date of the last publication of a complete version of Annex A. At any time a copy of the then current version of Annex A may be obtained from the websites of the Sponsoring Organizations, which are as follows:

ISDA	www.isda.org
EMTA	www.emta.org
The Foreign Exchange Committee	www.newyorkfed.org/fxc

One or more of the Sponsoring Organizations will also maintain on their website the previous versions of Annex A.

To avoid potential confusion, parties to a transaction may want to specify the version of Annex A that is being incorporated by reference to a date (*e.g.*, "March 1998 version") or an "as amended through" date (*e.g.*, "March 1998 version as amended through December 10, 1998"). Unless otherwise agreed, parties will be deemed to have incorporated Annex A as amended through the date on which the parties enter into an FX or currency option transaction.

As noted, Annex A is intended for use in conjunction with the Definitions. The Definitions, together with a User's Guide to the Definitions, are available from the Sponsoring Organizations. Information on how to obtain the Definitions and the User's Guide is available on the websites of the Sponsoring Organizations listed above or by contacting the offices of one of the Sponsoring Organizations.

The User's Guide to the Definitions notes on page 20 that use of currency exchange rates from certain Reuters RIC screen pages such as "HKD=", "INR=" and "THB=" may not reflect a broad sampling of the market. Users of certain of the Chilean Peso Settlement Rate Options included in this version of Annex A should note that those Settlement Rate Options refer to such pages (*e.g.*, "CLPP=", "CLP=" and "CLPOB="). Market participants should exercise the same degree of care when using these Settlement Rate Options that they exercise with any other rates obtained from Reuters RIC screen pages.

The Sponsoring Organizations have no relationship with the organizations that have created or publish or provide the information that serves as a basis for the currency spot rate definitions referred to in Annex A. The Sponsoring Organizations do not assume any responsibility for the non-availability or miscalculation of, or any error or omission in, any of the currency spot rates referred to in Annex A. The Sponsoring Organizations assume no responsibility for any use to which these Definitions may be put or for the use of any currency spot rate definition in connection with an FX or currency option transaction.

**ANNEX A TO THE
1998 FX AND CURRENCY OPTION DEFINITIONS**

The following definitions and provisions supplement and form a part of the 1998 FX and Currency Option Definitions (as published by the International Swaps and Derivatives Association, Inc., the Emerging Markets Traders Association and The Foreign Exchange Committee). The definitions and provisions may be incorporated into a document by wording in the document indicating that, or the extent to which, the document is subject to the 1998 FX and Currency Option Definitions. Unless otherwise agreed, parties will be deemed to have incorporated Annex A as amended through the date on which the parties enter into the relevant FX or currency option transaction.

The Calculation Agent will request each of the Reference Dealers to provide a firm quotation of (A) in the case where one ADR represents less than one Share, its bid and offer price (in the Reference Currency) for one Share and its bid and offer price (in U.S. Dollars) for the number of ADRs which represent such Share and (B) in all other cases, its bid and offer price (in the Reference Currency) for the Share or Shares, as the case may be, and its bid and offer price (in U.S. Dollars) for one ADR. If one or more quotations are provided, the rate for a Rate Calculation Date will equal the ratio of (1) the arithmetic mean of the midpoint of the bid and offer prices quoted in the Reference Currency by each Reference Dealer for such Share or Shares, as the case may be, and (2) the arithmetic mean of the midpoint of the bid and offer prices quoted in U.S. Dollars by each Reference Dealer for such ADR or ADRs, as the case may be, subject to an adjustment, if any, by the Calculation Agent to reduce the effect of momentary disparities in the prices of the Share or Shares and the ADR or ADRs, as appropriate. The quotations used to determine the Spot Rate for a Rate Calculation Date will be determined in each case at the Specified Time on the Rate Calculation Date or, if no such time is specified, the time chosen by the Calculation Agent.

(ii) "CURRENCY-IMPLIED RATE (LOCAL ASSET)" or "CURA2" each means that the Spot Rate for a Rate Calculation Date will be the Reference Currency/Settlement Currency exchange rate, expressed as the amount of Reference Currency per one unit of Settlement Currency, determined on the basis of quotations provided by Reference Dealers on that Rate Calculation Date for that day's price of Local Assets. The Calculation Agent will request each of the Reference Dealers to provide a firm quotation of its bid and offer price (in both the Reference Currency and the Settlement Currency) for an amount of Local Assets whose face value equals the Specified Amount. If one or more quotations are provided, the rate for a Rate Calculation Date will equal the ratio of (A) the arithmetic mean of the midpoint of the bid and offer prices quoted in the Reference Currency by each Reference Dealer for such Local Assets and (B) the arithmetic mean of the midpoint of the bid and offer prices quoted in the Settlement Currency by each Reference Dealer for such Local Assets. The quotations used to determine the Spot Rate for a Rate Calculation Date will be

determined in each case at the Specified Time on the Rate Calculation Date or, if no such time is specified, the time chosen by the Calculation Agent.

(iii) "CURRENCY-MUTUAL AGREEMENT" or "CURA3" each means that the Spot Rate for a Rate Calculation Date will be the Reference Currency/Settlement Currency Specified Rate, expressed as the amount of the Reference Currency per one unit of Settlement Currency, for settlement on the Settlement Date agreed upon by the parties on or prior to that Rate Calculation Date (or, if different, the day on which rates for that date would, in the ordinary course, be published or announced).

(iv) "CURRENCY-REFERENCE DEALERS" or "CURA4" each means that the Spot Rate for a Rate Calculation Date will be determined on the basis of quotations provided by Reference Dealers of the Specified Rate for such Rate Calculation Date, expressed as the amount of Reference Currency per one unit of Settlement Currency, for settlement on the Settlement Date, as follows:

(A) if CURRENCY-REFERENCE DEALERS is the primary Settlement Rate Option, the Calculation Agent will request the Specified Office of each of the Reference Dealers to provide a firm quotation of the Specified Rate for a transaction where the amount of Reference Currency equals the Specified Amount. The quotations used to determine the Spot Rate for a Rate Calculation Date will be determined in each case at the Specified Time on that Rate Calculation Date or, if no such time is specified, the time chosen by the Calculation Agent.

(B) if CURRENCY-REFERENCE DEALERS is a Fallback Reference Price Settlement Rate Option, the Calculation Agent will request the Specified Office of each of the Reference Dealers to provide a quotation of what the Specified Rate would have been had it been published, reported or available for the Rate Calculation Date, based upon each Reference Dealer's experience in the foreign exchange market for the Reference Currency and general activity in such market on the Rate Calculation Date. The quotations used to determine the Spot Rate for a Rate Calculation Date will be determined in each case for such Rate Calculation Date, and will be requested at the Currency Reference Dealer Specified Time, if any, or as soon as practicable after it is determined that the Specified Rate was not available.

In the case of either (A) or (B), if four quotations are provided, the rate for a Rate Calculation Date will be the arithmetic mean of the Specified Rates, without regard to the Specified Rates having the highest and lowest value. For this purpose, if more than one quotation has the same highest value or lowest value, then the Specified Rate of only one of such quotations shall be disregarded. If two or three quotations are provided, the rate for a Rate Calculation Date will be the arithmetic mean of the Specified Rates provided. If fewer than two quotations are provided, it will be deemed that the Spot Rate for that Rate Calculation Date cannot be determined pursuant to this Settlement Rate Option.

(v) "CURRENCY-WHOLESALE MARKET" or "CURA5" each means that the Spot Rate for a Rate Calculation Date will be determined by the Calculation Agent on the basis of that day's Specified Rate, expressed as the amount of Reference Currency per one unit of Settlement Currency, in a legal and customary wholesale market in which there is no, or minimal, Governmental Authority controls or interference, except as a participant in such market.

In each such case, the Specified Office will be the office or branch of the Reference Dealer located in any major market for the purchase and sale of the Reference Currency and the Settlement Currency outside the country where the Reference Currency is the lawful currency, as selected by the Calculation Agent.

(b) Notwithstanding subsection (a) above, in any case where the Spot Rate for a Rate Calculation Date is based on information published or announced by any Governmental Authority in the relevant country, the Spot Rate will be subject to the corrections, if any, to that information subsequently published or announced by that source within 5 days of the Rate Calculation Date.

(c) In the event that a party to a Transaction notifies the other party to the Transaction of any correction referred to in subsections (a) or (b) above no later than 5 days after the expiration of the period referred to in such subsection, an appropriate amount will be payable as a result of such correction (whether such correction is made or such notice is given before or after the Settlement Date of the Transaction), together with interest on that amount at a rate per annum equal to the cost (without proof or evidence of such cost) to the relevant party (certified by it) of funding that amount for the period from, and including, the day on which, based on such correction, a payment in the incorrect amount was first made to, but excluding, the day of payment of the refund or payment resulting from such correction.
